STRANGE IS IN WASHINGTON

Lieutenant Governor There to Save Duty on Wood Pulp If Possible

WASHINGTON, D. C., April 6.—In committee of the whole this afternoon the house struck from the Payne bill the countervailing proviso in the lumber schedule.

Dearmond's amendment, providing for free trade in lumber in the western hemisphere was defeated as was a resolution by Hardy (D., Tex.) providing for free trade in lumber with all the world.

The Fordney amendment striking out the countervailing proviso was then adopted.

Tawney then offered an amendment taking the duty off rough lumber.

"I offer this amendment," he said, "as a republican and as a protectionist. The gentleman from Michigan (referring to Fordney) favors monopoly protection with his plan for duty on rough lumber—a raw material."

Fordney denied that he was not a good republican. He replied that he had heard Tawney had refused to vote for the special rule unless the ways and means committee would assure him of an opportunity to vote on lumber.

"That statement is false," shouted Tawney.

After a further squabble, wherein Fordney made the amende honorable, although declaring Tawney a backslider from the ranks of republicanism and a free trader, peace was restored.

Tawney's amendment was defeated on a rising vote, 151 to 173.

On demand a vote by tellers was then called, resulting in the defeat of the amendment by 170 to 176.

Representative Pou of North Carolina declared himself opposed to free lumber.

In an attack upon Tawney, Representative Cushman (R., Wash.) said that the Minnesota man's supposition was governed by selfishness. He asked whether Tawney would favor free barley, wool or wheat.

"If he is a republican, I am not," shouted Cushman. "I am here to impugn the republicanism of any man who wants \$1 a thousand on barley and not a cent per thousand on lumber."

WASHINGTON, D. C., April 6.—(Special.)—Representatives Carey, Cooper, Kopp, Lenroot, Morse and Nelson, and of course, Weiss, the democrat, voted against the previous question on the Cannon rule for the consideration of the tariff bill. Representatives Davidson, Esch, Kueselmann and Stafford voted to order the previous question and for the rule. The Wisconsin representatives voting against the rule did so because they believe it did not provide for separate votes upon enough schedules to safeguard the interests of the consuming public. They desired separate votes on gloves, hosiery and some of them on the woolen and cotton schedules.

Senate Protects Women. As to gloves and stockings, however the battle seems already won. Congress has struck its colors to the women of America. Statesmen experienced in contesting for or against the greatest political, sectional and financial interests, have surrendered on the proposed high tariff on women's and children's gloves and stockings, in response to the indignant wave of protest that has been sweeping over the country.

The senate committee on finance, which has charge of the tariff in the upper house of congress, has voted to substitute for the prohibitive duties on gloves and stockings in the Payne bill the more moderate rates now in force under the Dingley act. That will leave conditions just as they have been in the past, twelve years and so far as the tariff is concerned, there should be no change in prices.

The house leaders, too, have yielded to public sentiment and have given pledge that the Dingley rates on gloves and stockings shall stand. Representative Wilson (R., Ill.) who has been a leader in the opposition to the high duties on gloves and stockings in the Payne bill, said

BROWNSVILLE MAN FOUND IN DESPERATE CONDITION

OTHERS ARE ENDANGERED

Tom Kelly, Unaware of his Condition, Commingles With Others and Causes Scare

Unaware of the fact that he was suffering from a contagious disease Tom Kelly of Brownsville was in the city yesterday roaming the streets and visiting the stores and other places of business, while suffering from the most virulent form of smallpox. The authorities first became aware of his condition when he appeared at Christensen and Gundersen's office complaining that he had not been feeling well and wanted to know what they could do for him. Health Officer Murphy was immediately notified and the man was detained until he arrived.

Up to that time he was entirely unaware of the fact that he was suffering from the most contagious of diseases. He first noticed that he was ill several days ago and since his case is an advanced stage of smallpox the authorities say that he has wandered about sleeping at several farm houses leaving a trail of this terrible disease in his wake. He was immediately taken to the pest house by the health officer, where he will receive proper treatment. In the meantime Mr. Murphy is keeping a vigilant lookout for any further evidences of smallpox that he may have been responsible for.

LAKE BOAT MEN GO ON STRIKE TODAY

BUFFALO, N. Y., April 6.—The individual contracts, which the members of the Lake Carriers' association compelled their engineers to sign during the winter following their declaration that they would enforce the "open shop" in the engine and fire rooms of the big lake steamers during the present season, are being repudiated by the men at the demand of the Marine Engineers' association. Each engineer that sends his contract back to the owners states in writing that he has been ordered by the union to recognize only contracts with the union as a body and that he will not report to work until this is done.

Cleveland and other lake ports report similar action.

"HELLO GIRL" SAVES LIVES OF FAMILY

LOGANSPOUT, Ind., April 6.—A telephone girl who tried to raise R. Erb's family on a call to Erb, who is a railroad man to take a "special" run saved the entire Erb family from asphyxiation from coal gas early today. The girl was unable to get Erb to answer until finally Erb took the receiver from the telephone and cried "Help." Without losing her presence of mind, the girl summoned a physician and railroad men to the Erb house where the entire family was found unconscious. Erb was lying on the floor in front of the telephone.

BROKER STILL MISSING CHICAGO, April 6.—Two inquiries into the condition of the suspended brokerage firm of John Dickinson and Company will be started tomorrow when Referee in Bankruptcy Sidney Eastman appointed late yesterday by Federal Judge Landis will begin the examination of witnesses and the board of trade directors will direct the insolvency committee to start an investigation. Meanwhile, the mystery surrounding the whereabouts of John Dickinson has not been dissipated.

WASHINGTON, D. C., April 6.—President Taft today decided to appoint Richard A. Sloan as governor of Arizona and George J. Young as secretary of state of that territory.

BALLOTING TODAY REASONABLY HEAVY

CONSIDERABLE INTEREST IS TAKEN IN VOTING

RESULT IN THE BALANCE

Chairmen Bleekman and Doherty Are Both Certain of Victory, as Is Always the Case

"Well, you can say we have got them on the run. I am optimistic. I think with the large majority which we expect Dr. Sutter to bring down from the North side, we will have votes to spare tonight."—A. P. Bleekman, chairman of republican city committee.

"Tonight will tell the tale. It is somewhat early to forecast the result of the election yet, as we have not heard much about how the vote is going. I believe we will win."—John F. Doherty, chairman democratic city committee.

With both sides optimistic and party workers in every ward scouting out every vote available, the political gossip at noon today denotes that the contest between the rival candidates for mayor will be the closest for many years. The North side is polling an unusually heavy vote in some wards and especially in the Fifth, where the two candidates for city treasurer reside, is the contest bitter. A democratic alderman, John Downs, is also a candidate for re-election in this ward, and between the Young-Downs faction on one side and the Sutter-Allen politicians on the other a battle royal is on.

Many democrats throughout the city are cutting their tickets and some of the republicans are favoring democratic candidates in certain instances. But few women are turning out to vote in the school election. The vote was not exceptionally heavy today, perhaps owing to the intermittent showers keeping indifferent voters away from the polls. However, indications are that a good sized vote will be polled.

At West Salem a hot license fight is being conducted.

GOV. LILLEY SAID TO BE DYING

HARTFORD, Conn., April 6.—That Gov. Lilley is critically ill and his death is expected at any moment was learned today on good authority. Chas. L. Goodwin, secretary of the governor, left the governor's residence shortly before noon. He admitted that the governor was critically ill and stated his physicians would issue a statement later in the day. It was learned from an authoritative source that the governor is suffering from Bright's disease.

PITTSBURG, Pa., April 6.—Two boys were killed and 7 others badly hurt today in an accident on the South Twenty-second street incline. The dead are Arthur Miller, 16, and Albert Klinskenberger, 16.

The cause of the accident is a mystery. When the car was nearly half way up to the top of the incline there was a sudden jerk, then the cable parted and the car with its load of passengers shot downward.

Persons who were in the vicinity say they heard the men on the car yell loudly and a few seconds later there was a terrific crash as the car dashed through the gates at the bottom. The injured are expected to recover.

QUESTION SANITY; CAMPAIGN TRICK

SALOON ELEMENT SEEKS TO "LOSE" A. J. PHILLIPS

LIBELOUS; THEY ARE SCARED

Judge Brindley Refuses to Send Sheriff for Prominent West Salem Man and Coup Falls Flat

Parties said to belong to the "for license" element in West Salem yesterday undertook to have A. J. Phillips, a prominent resident of that city, seized and placed in jail over election day, pending an examination into his sanity upon a petition they had signed, for the purpose, it is said, of being rid of his influence in the election there today. The coup failed when County Judge Brindley informed the messenger of the saloonists that their action was libelous, unless there was ground for the charge of insanity, and refused to send Sheriff Duncan to West Salem to place Mr. Phillips in custody.

Mr. Phillips, who is one of the best known residents of La Crosse county, has been unusually active in the anti-license crusade and it is said has spent much personal effort in sending out letters and literature to influence voters to vote out the saloons. The saloon element is said to have been very bitter over his activity and yesterday concocted a scheme to petition the county court to examine him for his sanity. This ruse it is claimed by indignant friends of Mr. Phillips was in the hope that the judge would order his detention and that Mr. Phillips would be arrested and held pending an examination which would probably not take place until after election day, thus taking him out of the campaign today.

Yesterday morning someone in West Salem telephoned to the county judge's office, during the absence of the judge and informed Registrar in Probate John Costley there was a maniac in West Salem they desired arrested and examined at once. Telling them that it was a dangerous case to have Dr. Wakefield examine the man at once, Costley made further inquiry and found out that it was Mr. Phillips whose sanity was under discussion. Suspecting something wrong Costley made further inquiry with the result that Judge Brindley later in the day telephoned to Dr. Wakefield and warned him to have nothing to do with the case, which bore the earmarks of a saloon-faction trick.

Later in the afternoon a man from West Salem appeared at the court house after the departure of Judge Brindley, then later went to his house and presented a petition bearing the names of five West Salem people, asking that Phillips be examined for his sanity. The man explained he wanted a deputy sent to West Salem at once to bring Phillips in. Seeing through the ruse to get Phillips out of West Salem on election day, Judge Brindley informed the messenger that the action they were taking was extremely libelous, and dangerous in the event Mr. Phillips was not to be suspected of insanity. The messenger, thoroughly frightened, hurried home without presenting the petition formally and today there is no one in West Salem who seems able to learn who were the signers of the paper.

Mr. Phillips himself was at the office of Judge Brindley today seeing what can be done to punish the perpetrators, and it is said feeling is high against the saloonists who are said to be responsible for it. Mr. Phillips said it was a trick to get him out of the way, but that some of the friends of the saloonists were now claiming it was merely a joke to rob him of his vote, since he had been so active in the campaign.

It is not shown today where the matter will end, but it is likely it will be dropped, as Mr. Phillips and his friends are inclined to think nothing would be gained from forcing prosecutions.

CABLE PARTS AND WRECK KILLS TWO

DEATH MAY END A TRIAL FOR MURDER

MRS. SAMPSON'S MOTHER IS NEAR THE END

STATE DEPENDS UPON HER

Story That Sampson Was Eating Bread and Cheese When Killed Is Vital One

LYONS, N. Y., April 6.—The trial of Mrs. Georgia Sampson for the alleged murder of her husband, Harry Sampson, may collapse within the next 24 hours. Mrs. Frank P. Allyn, mother of the young defendant, is so critically ill that her death may take place at any moment, while her daughter, burdened by the thought of her mother's condition as well as her own hard fate, is so highly nervous and excited that she has not slept in 48 hours, and it was necessary for the attending physician to give her a strong sedative before she could be brought to the court house today. Mrs. Allyn is the chief witness for the state. An unwilling witness, but according to District Attorney Gilbert, she is depended upon by the state to prove its contention that when Sampson was killed he had in one hand a piece of cheese and in the other a slice of bread, thus upsetting the suicide theory.

Georgia Sampson, stoical and seemingly unconcerned, held her outward poise up until she was told that her mother would probably die. When she was finally informed that Mrs. Allyn was critically ill, she collapsed utterly.

Lying on her cot in the jail, she moaned and wept and her paroxysms of grief were pitiful. She refused to be comforted.

"Oh, God, let my mother live, let her live," she pleaded and until her physicians administered the strongest of sedatives did she quiet down.

Mrs. Anna Kape, of Chicago, the aunt of the accused young woman, declared that all of the family were confident of a quick acquittal.

District Attorney Gilbert in the opening address was purely formal. The jury was completed last night.

The State's Case.

Mrs. Sampson sat between her sister and the daughter of the sheriff and watched intently every gesture of the man who is working to send her to the electric chair. Her early nervousness soon wore off and at times she leaned well forward so that she could follow every word. Gilbert reviewed the life of Young Sampson. Proceeding to the morning of the tragedy he said:

"It will be argued that this defendant was not in the room when the shots were fired. We expect to prove that she was. We also expect to show that with a wound of the nature that caused death, with a weapon of the kind that admittedly was used, with ammunition such as was in the rifle, it would have been an absolute impossibility for the victim to have killed himself."

"There were eight persons in the house that morning, and six of them must have been fired, then it must have been fired by this woman."

"We will show that Harry discovered a letter written to his wife, that he read parts of it and that he then told her that it would be impossible for him to longer live with her."

PASTORS' RAID ON THE BLIND TIGERS

MAYFIELD, Ky., April 6.—A body of 100 men, led by all the ministers and county officers, marched to a blind tiger on the east edge of town today and after breaking down the door, confiscated about 20 quarts of whiskey. After the booze had been loaded in a hack and Rev. Dr. Knowlen delivered a prayer, the procession marched through town and stopped in front of any suspected place, where they ordered the proprietor to cease all bad conduct. They were then dismissed with prayer by Rev. W. W. Adams. This movement followed the killing of Jesse Cooley and the suicide of Geo. Wilcox, both of whom are said to have been drunk on blind tiger whiskey. The committee will remain organized.

PATTEN TAKES PROFITS

CHICAGO, April 6.—"I am not running a corner in wheat and why shouldn't I sell a reasonable amount at the present price to keep the market in a natural position?" This was the remark of James A. Patton today when asked if he had sold two or three million bushels of wheat yesterday and Saturday on May contracts at prices ranging between \$1.21 and \$1.22 1/4.

TEDDY, JR. AND THE GIRL HE'LL MARRY

Theodore Roosevelt, Jr., son of the only living ex-president of the United States, is engaged to Miss Carrie Munn of Washington, D. C., according to reports from Hartford, Conn., near which city young Roosevelt is employed in a carpet factory. Miss Carrie Munn is the daughter of Mrs. C. A. Munn of Scott circle, Washington, D. C. The Munn family is of high social standing and wealth. For several days Miss Munn has been a member of a party of nine at the exclusive Country club, Farmington, Conn., where a birthday party in honor of young Roosevelt was given last Friday night. The visitors at the club were chaperoned by Mrs. Munn and by the wife of Admiral Cowles, an aunt of Teddy, Jr. Among the guests were Mrs. Munn's three sons and two daughters. In Washington Miss Munn has been a chum of Ethel Roosevelt and now it is said she is to marry Ethel's oldest brother. The picture shows Miss Munn and Theodore, the latter taken just as he was starting to experiment in a balloon.

Bosenthal Declares That Victory of Government Means Business Dissolution

ST. LOUIS, Mo., April 6.—Chas. B. Morrison, who followed Kellogg for the government in the Standard Oil dissolution suit, almost at the opening of his argument sprung a sensation that made the Standard Oil lawyers suddenly straighten themselves in their chairs and take renewed interest in the proceedings.

Morrison laid on the table a bundle of papers which he said were reports of the railroads to the Standard showing the shipments of independents.

"They were given to me by a boy named Armstrong, 17 years old, who has been employed in the so-called competitive department of the Standard," said Morrison. "The government does not approve of the boy's method of turning over the papers, but we have brought them to court."

The papers were reports made on regular printed forms showing the amount of shipment, the name of the independent company and the point from and to which the goods were consigned.

The competitive department was described by the attorney as the "spy" department.

Rosenthal, the \$1,000 a day attorney of the big oil company, looked up with sudden interest when the papers were laid on the clerk's desk and paid closer attention to Morrison as he continued.

Crushes Competitors

"The Standard," said Morrison, "from its office, 26 Broadway, keeps in touch with the financial world and crushes competitors at will. One of its most important departments is its statistical bureau where it keeps a record of every barrel of oil shipped by an independent. Through the knowledge furnished by this department it can reach and crush competitors."

Spy System Complete

"Railroad companies and oil inspectors furnish the Standard such information that it can trace down to the consumer every particle of oil produced and sold. The Standard maintains a complete spy system. The railroads send complete reports to this department. The government learned this from the reports themselves. The 'spy' department is called the 'competitive' department and is maintained to stifle competition."

"Armstrong, the clerk who gave the government these records, work-

### COMPACT IS INEXPENSIVE

Would Monopolize All Kinds of Titles in Baseball World, Including World's Championships

CHICAGO, April 6.—Owners of the Cubs and Sox yesterday formed a baseball trust. It will have for its object the keeping of the two baseball championships of the major leagues in Chicago, with the world's title thrown in for good measure. The two magnates, Charles Comiskey, of the South Siders, and Charles W. Murphy, of the West Side, met on Dearborn street and clinched the deal. What it cost to cement the combination was split by the two and a bunch of fans went away happy after it was all over.

"Well, if here isn't the owner of the world's championship," was Comiskey's greeting as he espied the round boss of the Cubs.

"Probably I wouldn't have been had we met you," was the rejoinder.

### BALL PLAYERS FIGHT BAILED IN COURTS

NEW ORLEANS, La., April 6.—"People don't go to ball games to see a fight. If any other ball player comes before me for this sort of thing again, I will give him the limit of the law."

With these parting words Recorder Fogarty discharged Charles Dexter of the New Orleans baseball club, and Grover Land, of the Cleveland Americans, who were arrested for fighting on the diamond yesterday while a game between the Naps and Pelicans was in progress.

### MILWAUKEE PUG GETS BUM DECISION

MEMPHIS, Tenn., April 6.—Jimmy Clabbe of Milwaukee today considers himself winner over Dick Fitzpatrick of Chicago, whom he fought here last night although the referee declared the bout a draw.

Clabbe forced the fighting in almost every round and at the end of the eighth round he had his opponent groggy. The referee's decision angered several of Clabbe's friends and backers and serious trouble was narrowly averted by the police hustling the referee out of sight.

### BAT NELSON TALKS FOR PUBLICATION

CHICAGO, April 6.—If Battling Nelson has been matched to fight Dave Desher at Ullmer Park, L. I., on April 20, he said today he does not know it. He added, however, that if his manager, Willis Britt, has made such a match, he will fight. Otherwise he would not.

Nelson says he has more reported managers than fights on his hands. Some one booked him for a bout at Juarez, Mexico, another at Joplin, Mo., and a third at El Paso, Texas. Nelson said he never heard of any of these matches.

### WANTS TO FIGHT AL KAUFMAN TOO

BOSTON, Mass., April 6.—Jimmy Barry, the Chicagoan, who is to try out Sandy Ferguson here tonight, is in fine form.

Teddy Murphy, Barry's manager, says Barry will win and is going after Al Kaufman for another match. "Barry had Kaufman beat up to the thirteenth round in their last bout," said Murphy. "Then Barry's hands went back on him and saw it was no use to go on after the thirteenth round."

### RACE TRACK MARTYRS MAY BE PARDONED

NEW ORLEANS, La., April 6.—Lyles, Sheffield and Frigerto, the turfmen who made a test of the Locke anti-race betting law and were sentenced to prison, may be pardoned soon. A petition was placed in circulation today asking for a pardon on the grounds that the three men offered themselves up as victims to test the law.

Lyles, Sheffield and Frigerto began serving sentence yesterday.

### BIG FELLOWS TALK BUT DON'T FIGHT

HEAVYWEIGHT SITUATION IS UNCHANGED TODAY

### JIM CORBETT COMPLAINS

Says Al Kaufman Is Unfit to Meet any Real Good Fighter and Wants a Chance Himself

NEW YORK, April 6.—The heavyweight pugilistic situation is at a standstill today and will probably remain so until the arrival of Jim Corbitt, the California fight promoter, who left San Francisco yesterday for the east. It is believed the westerner will bring together two of the heavies and it is likely that he will offer better inducements to see the men in action than will be offered by the local promoters. The opinion still prevails that Big Al Kaufman is the logical opponent of Jack Johnson and every move that will be made is likely to be toward getting these two in the ring.

### CORBETT TALKS

CLEVELAND, O., April 6.—Jim Corbett is after Al Kaufman. When the fact that Johnson was going to take on Big Al Kaufman was called to his attention he said: "Who did Kaufman ever lick? He took 31 rounds to knock out poor old Jim Barry and at that rate he would last about five minutes before a first class man. Now, I don't want to knock Kaufman but for the life of me I don't see what license anyone has to consider such a fellow ahead of me."

Corbett complains bitterly that he is spoken of as "old." "Though I am 42," he says, "I have always taken good care of myself. I weight 192 pounds and am almost as spry as I was several years ago. The only difference between Johnson and myself is ten years of age and that has not made as big a difference as most people believe."

### WESTON'S PACE IS TOO FAST FOR BOY

CANTON, O., April 6.—Edward P. Weston left Canton at 6:40 this morning on his New York-San Francisco walk, after a good night's rest here. Today his walk will carry him through Massillon to Wooster, 33 miles.

Ralph Stewart, 17, of Johnstown, Pa., who joined the aged pedestrian at Youngstown for the walk to the coast, couldn't stand the pace and dropped out at Salem yesterday, 20 miles after starting.

The crowd that greeted Weston in Canton packed the streets along the line of his walk and surged around the hotel. Weston spoke briefly to the crowd from the balcony of the hotel.

Tired, dusty and hungry, Willard Foster and L. Gage arrived at the local Y. M. C. A. at 12 o'clock yesterday after having walked continuously from 3:30 yesterday morning. After a rest of about two hours here, they continued on their way to Bangor. They remained there over night and then returned to Winona. The young men took the Minnesota road down and reported the roads as being muddy, hindering their speed considerably. On their return trip the pedestrians will keep to the Wisconsin side of the river. They are members of the "Y" at Winona who will join the two weeks' hiking contest throughout the state next summer.

### HOPPE HURLS DEFI AT MORNINGSTAR

CINCINNATI, Ohio, April 6.—Willie Hoppe of Chicago, hurled his first official defi at Ora Morningstar of Indiana and New York and unless the latter is willing to rest on his laurels there will be something doing in the billiard world soon. Hoppe offers to play Morningstar 6,000 to 5,000 at 18.2 ball line and bet him \$10,000 to \$8,000.

### WEALTHY SPORTSMAN DEFENDANT IN SUIT

SAN FRANCISCO, Cal., April 6.—Walter S. Hobart, a millionaire polo player, sportsman and society favorite, is today defendant in a damage suit filed against him by Frank J. Keyser, who was struck by Hobart's automobile on April 7, 1908. Keyser demands \$2,750.

### RUBE WADDELL HAS EYE FOR BUSINESS

ST. LOUIS, Mo., April 6.—"Rube" Waddell is going to mix a little stage work with baseball. Having secured Manager McAleer's permission, he has signed a contract with a local theater to give a monologue on the art of pitching in a local theater or one week at \$500 per.

### PROVES HE IS NOT SWEETHEART SLAYER

TULIA, Tex., April 6.—The Jean Val Jean romance gathering about Henry S. Burnham, wealthy rancher, banker, and Sunday school worker, was shattered here when he proved that he was not Sylvanus Burnham, wanted in Terre Haute, Ind., for the murder of his sweetheart in 1877.

Burnham was arrested several days ago on a requisition from the governor of Indiana. He was released when proof came from Van Buren, Ark., that he had passed his early life there. He has never been in Indiana.

George Chambers, formerly of Terre Haute, now a neighbor of Burnham, was the cause of his arrest. He declared he recognized in the Texas rancher the man indicted 32 years ago for slaying Rosa Tritt in Terre Haute. Chambers now retracts his identification.

### HOT TIME DUE IN PRIMARY PROBE

MADISON, Wis., April 6.—(Special.)—When the legislature meets again the time limit of the joint committee to investigate the senatorial primary will have expired and the committee will immediately formulate its report for submission to the legislature. Whether there will be a continued investigation under the Bray resolution, or a separate investigation by the senate will depend largely upon the testimony disclosed at this week's meeting of the committee.

Developments thick and fast are expected on Wednesday afternoon, when the committee reconvenes. Six members of the legislature who have either said publicly that they knew something of corrupt acts during the election by the legislature, or whose absence from the joint convention assisted in electing Senator Stephenson, have been summoned to appear that day.

Three democratic assemblymen, Towne, Ramsey and Farrell are expected to give the most sensational testimony. Their absence from the chamber on the day of the election, March 4, reduced the total attendance to such an extent that Stephenson secured a majority of one. Zimmerman and Leuch made public charges against the campaign methods used and Domachowski is said to have told Zimmerman and Senator Pearson that he was offered \$1,500 to absent himself from the floor of the house.

It is not known whether any prosecutions will grow out of the investigation or not. The testimony of former State Game Warden Overbeck has never been certified to the governor, but the investigation is said to have had a wholesome effect upon the state.

You can easily dress better this spring if you'll let us make your clothes.

You don't have to make your selection from a small assortment of swatches and three yard lengths if you'll let us make your clothes.

And if it's a matter of price you don't have to buy ready-made hand-me-downs, for you'll pay no more if you'll let us make your clothes.

The enormous business we do enables us to offer high grade fabrics for one-third less than other tailors can buy them—that's why you can dress better if you'll let us make your clothes.

We frequently take the entire output of a woolen mill—that's why you get full bolts of cloth to examine and make your selection from if you let us make your clothes.

Our prices, \$15, \$17.50, \$20, \$22.50, are no higher than ready-made clothiers ask for their eight-months' old guessfits—

So, taking it all around, it's a pretty good stunt to let us make your clothes—

For we absolutely guarantee fit and workmanship, and we'll incorporate in every order, if you say so, "Satisfaction or No Pay."

#### OPEN SPACES VS. ALLEYS.

"Don't let your boys and girls race over other people's lawns! Don't let them gather in the alleys!"—The La Crosse Tribune.

Quoting The Tribune as above, the Wisconsin Journal of Education says:

This is undoubtedly good advice to be given to parents and teachers, provided it is followed by something more for the instruction of those who determine whether our children can live a natural life in the city. Will the La Crosse Tribune please indicate that it is to be done with boys in a crowd which belongs by right to the city, that they may conduct themselves as nature intended them to, that there are no open spaces, except at waste lawns, in a city, and except at waste alleys where boys may no longer play marbles, or to do congenial things which any rest.

children ought to do together; if there are no playgrounds about the public schools, and if pupils are punished for running on the grass; if the city makes no provision to meet the most fundamental needs of child life, would it really not be better to let boys and girls have a little tether in racing over other people's lawns, and in gathering in the alleys? These latter things are bad, no doubt; but it is worse to hunt children from pillar to post, and to repress every native instinct in them, which is attempted to be done in many cities today where no thought has been taken to provide public playgrounds. The writer of these lines has personally investigated the influence of playgrounds upon the conduct of the young in a number of the cities of this country, and he has found whenever a public playground is opened in the ward of any city juvenile crime of every sort therein decreases above fifty per cent, as a rule. If children have a fair chance to indulge their elemental impulses, which are essential to their development, they will not prefer to trespass upon private domain, and they will not choose the alley as a social meeting place. It is easy to issue commands to restrain children; but this sort of thing alone never has solved and never can solve the problem of juvenile errancy.

The question is a pertinent one, but La Crosse has its answer ready. This city is going to have open spaces and playgrounds and parks. It is going to have rest-spots of nature's own choosing. It is going to be clean and sanitary and elevating. It is going to breed clean, healthful, vigorous boys and girls, and it is going to keep them out of the alleys, for the alleys are the nurseries of viciousness.

#### BE FAIR, GENTS

On March 13, in conspicuous headlines on the front page of the Chronicle, appeared the following:

"OUR TOM SIDE-STEPS COUNTY OPTION VOTE." Following it was a story to the effect that Senator Morris had gone to Missouri and would not be in the senate to vote on the then pending county option bill, the inference being that he had gone to evade showing his hand on the bill.

On that same evening the Leader-Press published an editorial under the caption, "Morris to Miss Important Vote," a portion of which follows:

"It is Senator Morris' privilege to vote as he pleases on the county option bill, just as it is his pleasure to vote on other important propositions in opposition to the instructions of his constituents. But at least we have the right to expect that on a measure of this importance he be present and declare himself one way or the other. Certainly none in this district expected that Mr. Morris would choose the day the county option bill was to be voted on as the opportune time to go down into Missouri to explain to a justice of peace in that commonwealth the difference between chiropractic and osteopathy."

On April 1, on page 7 of that day's issue, the Leader-Press told under great, black headlines, the story of the defeat of the county option bill in the senate. In all that half column of headlines it did not mention Senator Morris, nor was his part in the matter given any prominence in the story. On the contrary, in an obscure little paragraph well down in the body of the story, was this sentence:

"Senator Morris, who is in Missouri, was paired against the bill with Hudnall."

Not that day, nor at any time since, has either the Chronicle or the Leader-Press apologized for its injustice to Senator Morris. These papers know that he did not "side-step" the vote; that by pairing, his vote was recorded and counted as much as if he had been present, that the only purpose for which one "side-steps" a vote is to prevent the public knowing how he stood, and that Senator Morris

went on record as fully as any man in the legislature. Why not play the game fairly?

Warden Stone collected a campaign fund for Governor Davidson from the deputy game wardens. Having kept it about seven months obedient to Mr. Stone's warning to "ask no questions," the governor now scorns the money and wants Mr. Stone to explain.

Obviously, the thing to have done is to return the \$1,200 to the deputy wardens. What say, Stone? What say, Jim?

The supreme court having held that Mayor Starkweather of Superior was properly removed from office because he accepted a contribution to his campaign expenses from the Superior police and fire departments, the question arises as to the status of Governor Davidson after that executive accepted, and has thus far failed to return, a contribution to his campaign expenses from the game warden department.

Interest in Dr. Anderson's address at Soncord's Saturday night will not be confined to the machine politicians. The far wider significance attached to it is its value as a record of what has been done in La Crosse during the past decade, and a brief for progressive municipal government.

The assertion of the Leader-Press that Senator (then governor) La Follette is the man who made Mr. Stone state game warden is a falsification. Stone was appointed by Governor Davidson.

#### IMPORTANT COURT DECISIONS

**TAXATION OF SCHOOL DISTRICTS.**—Under the Texas statute, school boards are given full management and control of free schools within independent school districts. It was held by the Texas court of civil appeals in *Messie vs. Palo Pinto Independent School District*, 105 Southwestern Reporter, 821, that the payment by the treasurer of the district during a previous scholastic year of \$135.57 on vouchers issued by the trustees, in excess of what he had received, and more than the claim for taxes against him, was no defense to a claim against him for taxes levied by the trustees for a special purpose not including the payment of a pre-existing indebtedness.

### SPOTLIGHTS

**Great Comedy Tonight.** George W. Wilson, who plays the Bishop of Lancashire in "The Servant in the House," has probably done more and better character work than any actor living. He appeared for sixteen seasons at the old Boston Museum, playing more than six hundred different roles and creating over one hundred new characters. His Colonel Starbottle in "Salome Jane" was a remarkable personal hit, and everyone who saw his great acting as King Louis XI. in Southern's "If I Were King" will enthusiastically endorse Henry Miller's judgment in selecting him for membership in the Henry Miller Associate Players. "The Servant in the House" will be seen at the La Crosse theater tonight.

**Al H. (Metz) Wilson.** Golden-voiced Al H. Wilson, the man who sang his way into the hearts of the people, will bring his latest play, "When Old New York Was Dutch," to this city on Thursday, April 8. The plot of "When Old New York Was Dutch" is well constructed. The author has not permitted a morbid sentiment or unwholesomely suggestive word to enter into it. Built upon the early history of New York it is instructive. Its refined comedy is mirth provoking and the sweet love scenes and Wilson's melodious voice win the sympathies of even the most cynical. In short, it is one of the class of productions that the theater-going public will appreciate.

**The Runaways.** With "The Runaways," the New York Casino's great success, it is a case of on the inside looking out, rather than on the inside looking out. The attraction, which pays its respects to La Crosse on Easter Sunday, April 11, has more laughs, amusing situations and catchy songs in as many minutes than any other musical production on the road. The company is well balanced, plenty of pretty girls, beautifully staged and brilliantly costumed. "A Kiss for Each Day in the Week," diminutive in stature, is assisted by the Six Wines Widows. To kiss each one he uses a ladder, each typifying one day of the week. From beginning to end "The Runaways" is filled with entertaining and amusing situations.

### IN THE NATION'S CAPITOL

(By John J. Hannan.) WASHINGTON, D. C., April 6.—Now that the fight upon the rule for voting on the Payne bill is over, it leaks out that Standard Oil has been the force which so long prevented the house from coming to a vote. While the idea has been fostered that the delay in securing a vote was due to the insurgent republicans who refused to bow to the will of Speaker Cannon, the fact is that Speaker Cannon himself was the cause for the delay. He refuses to acquiesce in the will of the majority of the house.

The majority desired a vote. It desired to vote not only upon the bill as a whole but before that time to vote separately upon a number of its schedules—lumber, hides, tea, coffee, hosiery, gloves, beer tax and oil. Speaker Cannon and his organization for days endeavored to line up enough members to vote for a rule providing for a separate vote upon all of these schedules or amending the bill upon some of them to meet the will of the majority, except upon the question of increasing the beer tax and of the adoption of the countervailing duty upon oil. And the principal of these is oil.

The speaker knew that a majority of the house should not have this opportunity. His lieutenants upon the floor grew angry because of the attitude of the representatives from Wisconsin, Iowa, Minnesota and a few of the western states.

These would not consent to a vote unless there be a separate vote upon oil. If the speaker could win them over, he would be assured of a majority. The evident purpose of the organization to make the country believe that these men who would not surrender to Standard Oil holding up the business of the country.

"Uncle Joe" and Standard Oil are the real hold-up men. The lieutenants of the speaker went so far as to tell members who will not surrender to Standard Oil that they have no right to claim to be republicans and that they should line up with the demonstrators they belong. Representative Boutelle of Illinois ventured a suggestion of this kind to Representative Good of Iowa, and Mr. Good replied to the effect that he knew of no declaration of the republican party making service to Standard Oil a test of party fealty, and he ventured to suggest that the republicans who refused to vote for Cannon's rule in the interest of Standard Oil would be serving in congress long after the gentlemen who were so solicitous of the interests of Mr. Rockefeller's company.

Pretty warm talk from a baby insurgent, but it's the kind that is being handed out all along the line in Washington these days. The great interest is not in what is being said upon the floor but it is in the struggle beneath the surface. The contest of Speaker Cannon and his friends upon one side to deliver to the Standard Oil a tariff schedule which will be full payment for the vote delivered by the Standard Oil in the speakership and rules contest, on the other side are arrayed the representatives who are more concerned about the consumers of the country than of any particular interest.

While the lieutenants of the speaker have not been quite as rash in their statements to Wisconsin members, they have clearly intimated that they feel the same way towards Representatives Cooper, Cary, Nelson, Morse, Lenroot and some others.

**Didn't Find the Senator.** "Whenever I see the name of Senator Tillman in print," said an old newspaper man, "I am reminded of a little incident that occurred several years ago when I was city editor of a little paper in a southern city. "Late one night a South Carolina correspondent wired that he had failed to get a desired interview because the senator had taken a train for Washington, but that we might catch him ourselves when the train passed through our city. Hastily searching a time table, I found that the train mentioned was due in a few minutes. There being no other reporter at hand, I seized 'Bud' Lunkly, a raw reporter fresh from the country, told him to meet this train at the station and get some sort of expression from the senator on a subject then of much importance. "Some time later Bud strolled calmly in and informed me that after a personal search of every car on the train he had failed to find Senator Tillman. "Do you mean that you looked into all the sleeping car berths, Bud?" said I.

"Yep, that's what I done," said Bud.

"But, Bud," I exclaimed in consternation, "weren't a good many of these berths occupied by ladies?"

"Sure," said Bud.

"But what did you do when you found a lady who had retired?"

"When I busted the curtain open and looked in and a woman jumped up and screamed, I took off my hat and says: 'That's all right, lady; you ain't the man I'm looking fer!'" —Philadelphia Ledger.

#### She Really Hated Men.

Miss Harriet Evans, an elderly spinster on whom an inquest was held at Hackney yesterday, was said to have been a confirmed man hater. "She was so much against men that she would not have a coin with the King's head on it," her landlady said. "If one was given her she would throw it into the fire. She would only deal in money bearing Queen Victoria's head. "Miss Evans went to the office of a local newspaper some time ago, but refused to enter it until a woman was sent to transact business with her. An advertisement for apartments which she published stipulated that there should be no man in the house. She even declined to receive letters because the stamps bore the King's head."—Pall Mall Gazette.

#### An Indian Arrow

"Plenty safe," grunted the red man. "No white man in a hundred miles from here."—Argonaut.

#### Do You Get Up With a Lame Back?

##### Kidney Trouble Makes You Miserable.

Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties. Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney, liver or bladder trouble. When writing mention reading this generous offer in this paper and send your address to: Dr. Kilmer & Co., One Doan's Building, Binghamton, N.Y. The regular fifty-cent and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N.Y., on every bottle.

**CHAPTER IX**  
**La Petite Jackson.**

Laura Tankerlane took especial pains over her toilet for the theatre that night. In spite of the shadow which had come over her life, and of the serious matters which were for ever uppermost in her mind, she was a woman who made the most of such small pleasures as life could still afford her. She was sensible enough to see that only strict attention to the more trivial details of existence could save her from insanity or death.

Laura Tankerlane was a beautiful woman and a rich woman, and it stands to her credit that she made the best of such advantages as fortune, none too kind to her in the more important things of life, had bestowed upon her face.

She had, indeed, every reason to be satisfied with her appearance, as she looked at herself in the long mirror in her bedroom before going downstairs to dinner. Art and nature alike had done all in their power to produce the perfect picture that was reflected in the glass. Her face was pale and cold, but faultlessly beautiful. Her magnificent hair had been roped and twined and arranged by one of the first artists in Paris. Her dress, one of Paquin's most marvellous and gorgeous creations, was in itself sufficient to excite the envy of every woman who set eyes on it. A tiara of diamonds glittered on her head, a string of the same cold sparkling jewels enhanced the soft whiteness of her throat, and a line of diamond stars scintillated along the corsage of her dress. She wore no gems but diamonds, and had always refused to accept anything else from her husband. Perhaps she looked upon them as the hard emblem of her life.

She looked at herself for a few moments in the glass, and smiled faintly as she thought of the contrast between this picture and the one she had seen every day in her little white bedroom at home. Her maid, a French girl, stood behind her with a rapturous look in her dark eyes.

Laura Tankerlane went down to dinner, and the meal was a pleasant one for all parties concerned. Lord Portlington brought with him an atmosphere of boyish geniality. Tankerlane himself, proud of his wife's beauty and of the evident effect it produced on his friend, was in the best of spirits, while Laura was only too glad of this change from the daily tete-a-tete meal with her husband, and exerted herself to appear as happy and charming as possible.

When the meal was over, they drove to the Colonnade, and entered the box which Lord Portlington had secured for them. The piece had not yet commenced, but the more fashionable parts of the house were nearly full. A new actress was appearing in Paris that night. For weeks past the papers had teemed with puffs and paragraphs about her beauty, her genius, and the jewels which were rumoured to have come from the scion of a Royal house. She was not a French-woman, and therefore Paris was anxious to see her, and, if necessary, disapprove of her presumption in appearing in a French play.

All eyes were turned on the newcomers, as they took their seats in the box, Laura Tankerlane in the middle, and the two men on each side of her. Tankerlane smiled grimly as he saw the opera-glasses turned on them, and kept in position

for a longer space than courtesy, even curiosity demanded. A fierce, joy seized him as he saw the eager glances of the women, the envious glances of the women. He had paid a long price for his wife—a price that was not to be reckoned in sovereigns, but in moments like these he was repaid.

It mattered nothing to him that he recognized two or three acquaintances in the house. He knew well enough that they would wonder what relation he bore to the beautiful woman by his side. But he did not care what they thought. Their curiosity would remain unsatisfied.

Laura was not in the least discomposed by the amount of attention she received. Her indifference showed very plainly the change that her nature had undergone since she left Laverstone. It was hard to believe that the daughter of a simple farmer could sit unmoved with the eyes of fashionable Paris staring at her. But she returned their stare with well-bred composure, and took in all the details of the women's dresses and jewels, as though she were examining a row of fashion plates. Under ordinary circumstances such a feat would have been the result of years of training. But there are moments in our lives which count for more in the moulding of character than many years.

When the piece commenced, she turned her attention to the stage. The play was a modern drama, well written, vigorous, an artistic combination of light and shade. Ten minutes after the rise of the curtain, the Comtesse de Larnac, played by the new American actress, was announced, and a rustle of expectation ran through the house. As she entered, there was a burst of applause—the generous recognition given by a Parisian audience to a foreigner.

Laura Tankerlane's glasses were fixed on the face of Mademoiselle Jackson, and she did not notice that her husband, who had been leaning forward over the edge of the box, had suddenly started to an upright position, and had then leant back so that his face was hidden from the stage.

ley division of the Milwaukee, running between Wauzeka and La Farge was wrecked about half a mile below the station at Gays Mills yesterday morning. Three freight cars, heavily loaded with merchandise, were derailed and two of the cars were badly damaged. News of the accident was immediately wired to North McGregor and a wrecking crew was sent out from that place to clear up the wreck. After working on the wreck for the greater part of the afternoon, the train was able to proceed on its way, arriving at the station about 10:45 p. m. None of the train crew sustained any injuries. The cause of the wreck has not been learned here up to the present time.

**Her Comment**  
An old Irishman named Casey made a lot of money as a contractor and built a fine house for his children.

The sons and daughters were much ashamed of the plebeian father, and Casey was always kept in the rear of the house when they had a party or a reception. One day Casey died, and there was a great to-do about it. The children had a fine coffin, with plenty of flowers, and Casey was laid in state in the parlor.

That evening an old Irish woman, who had known Casey when he was a laborer, came and asked to see the face of her dead friend. They conducted her to the parlor.

She walked up to the coffin, took a long look, and said:

"Faith, Casey, an' they've let ye into the parlor at last!"—Tit-Bits.

It is very hard to admit that a man younger than yourself has more sense.

### IDEALS OF WOMEN, NOT IDEAL WOMAN

SUBJECT DRAWN BY REV. G. W. FOGG OF NORTH SIDE

### SERMON SERIES TO GIRLS

Points Out Those Traits Which Women Should Cultivate to Reach Higher Ideals

"Woman's Ideals" was the subject of the sermon delivered at the Tabernacle Baptist church Sunday night by the pastor, George W. Fogg. This is the first of a series of sermons to young women on Sunday evenings during this month.

The pastor said in part: "It is not my purpose to speak of the ideal woman, as she is as much a wonder as is the leaning tower of Pisa; but the ideals of woman may well claim our attention at the present time. From one point of view the speaker is not the one to treat the subject; but from the standpoint of observation and experience in dealing with women, a number of observations have been made.

"Since man was made from clay, and woman made from his missing rib, she can claim a more noble heritage, and man from the time of the creation has been constantly in search of a helpmeet for him. Despite her heritage, woman has not always proven, as she should be, the crown of creation, but has failed to measure up to the standard desired by man. The story goes that she it was who first tempted man to sin. Certain it is she is not too ethereal and heavenly fair to be considered anything more than one of us.

**Women Need Culture.**  
"There are a number of ideal characteristics that women might embody. Among them are gentleness, culture, strength of character, and love. Everyone appreciates gentleness of woman and can see in it a portrayal of Christ-likeness. Culture is something that women should possess. Mrs. Taft has recently deplored the lack of culture in the aristocracy of wealth. Woman is largely the educator of the young in our country, and she should embody the best in education and refinement that can be secured. Every mother has to be a teacher of the young, and as such she has a duty to perform to her husband, to her neighbors, to herself and to her God. Home is the realm over which woman should be queen, and here she has a realm and an influence unequalled by any other class of persons among us. There are many hindrances to keep women from achieving their ideals. Some of them are avoidable, and some of them cannot be surmounted—perhaps the most obstacles can be surmounted. Mothers in their homes are not always doing their duty. It is a sad thought to know that many women teach their children falsehood both by their actions and words. This is done every time she tells her child to tell the man at the door that she is not at home, or when she orders a bill of goods and when the agent comes tells him that she has changed her mind. It has been my experience that only about one-third of the women can be depended upon in this respect.

### The Pathetic Girl Question.

"It is also a sad sight to see young girls at the time that they have opportunity and ability to continue their training at school running off to shop to earn a little pin money with which to buy curling tongs and mirrors to help them catch a fellow. Every time one takes the place of a man in work and works for a lower wage while she is half supported by her parents at home she reduces the earning capacity of women in general and puts a man out of work, who might otherwise be getting a living wage so as to support his family rather than walk the streets hunting a job. In intellect woman is of a different type, yet the equal of man, and in many cases the superior. This is shown every day in the higher institutions of learning where the ladies so frequently carry off the honors.

### The Inexorable Scold.

"If it has ever been your sad misfortune to visit a home in which there is a keen-tongued, sour-dispositioned quarreling woman, constantly nagging the husband so as to worry the life out of him, you have prayed in your heart to be delivered from such a home. Such a shrew should be tamed as Shakespeare has pictured the 'Taming of the Shrew.' Marriage is a lottery as well for the men as for the women. It is like buying a pig in the bag.

"A woman's character is a tower of strength for the country. In Harborsburg I saw two women fighting. It is a sight to make angels weep, where blood is running and hair is flying. As is the mother, so are the children, and so is the home.

"Love is the high characteristic of women. There is scarcely anything that a true loving woman will not forgive. We see it enacted nearly every day so that we almost condemn

the wife for being so charitable in forgiving, because she does so to her own injury. It seems natural that in woman should be the highest expression of God's love to man. By her love she rules the world.

"As unto the bow the cord is, so unto man is woman— Though she bends him she obeys him, Though she draws him yet she follows—

Useless each without the other."

**Religion Her Crown.**  
"Woman without a religion is a queen without a crown. Even the man who has no regard for the church for his own spiritual benefit likes to find for a wife a woman who is a Christian. Woman has ever taken a prominent part in almost all religions. From witchcraft and prophecy to temple service and priesthood, she has always been more or less prominent. Today the women do a large part of the work of the church. Be it said in all high honor to them they are sincere and can be depended upon."

### OLD NORTH SIDE RESIDENT CALLED

APOPLEXY TAKES MRS. T. EVENSEN LAST NIGHT.

### TAKEN SICK LAST THURSDAY

Well Known Old Lady Was 79 Years of Age and Was a Native of Norway

Mrs. T. Evensen, an aged resident of the north side, died at the home of her daughter, Mrs. K. Hanson of 1922 Charles street, at 10 o'clock last night. She became sick last Thursday and the physician who was called in, pronounced it a case of apoplexy of a serious nature.

Mrs. Evensen was born in Norway 79 years ago and has been a resident of this country for 57 years, coming here in 1852. Upon her arrival in America she immediately joined her husband at Bostwick valley and continued to live there until her husband's death 10 years ago. She then came to this city and has since that time lived with her daughter on the north side.

She is survived by three daughters, Mrs. Howard of Burnett county, Wis., Mrs. K. Hanson and Mrs. Hecky of this city, and one son, E. Evensen, of Barre Mills.

The funeral arrangements are not completed but in all probability she will be buried beside her husband in the cemetery at Barre Mills. The funeral will be held from the house, 1922 Charles street, Wednesday, Undertaker Sletten in charge.

### HE MAY SUCCEED MANAGER OF SOX

CHICAGO, March 19.—Unless Fielder Jones changes his mind in the near future and decides to return to the White Sox for the coming season, Billy Sullivan is the legitimate candidate for manager.

Billy Sullivan has been a big factor in the success of the White Sox since 1901, when he came to Chicago from the Boston National league club. He has been a ball player all his life, and he is now 34 years old. As a boy he displayed unusual ability in the high school teams in his Wisconsin home town. After leaving school he became backstop of the Edgewater (Wis.) club. In 1898 he joined the Columbus club of the Western league and the following season was transferred, with his team, to Grand Rapids, Mich. Just before the close of the season with Grand Rapids he was sold to the Boston National league and then to Comiskey, where he has since been playing.

Everything hinges on Jones' appearance and there are many who think he will be back in the harness when the game opens up, but unless he does the chances of Billy Sullivan as manager of the White Sox are way above par.

nacle Baptist church will give a cantata, "A Fete in Flowerland," in the church parlors Thursday evening.

Mr. Fred Riek and sister Lillie, 1601 Loom's street, left Monday morning for a visit with relatives at Rhinelander, Wis.

Mrs. Percy Talley, who accompanied the body of her mother to this city for burial, returned to her home in East Dubuque, Ill., Sunday.

Miss Essie Booher of Trempealeau is visiting friends on the north side. The Ladies' Aid of the North Presbyterian church will meet in the church parlors Thursday afternoon.

Mrs. Wm. Dwyer, 632 Mill street, who was operated upon at the St. Francis hospital last week, is improving.

unto you remission of sins: and  
by him every one that believeth is  
justified."

The first blessing that God offers  
the penitent is the forgiveness of his  
sins. And indeed this is the first  
thing that a truly penitent heart de-  
sires. He knows that he is guilty and  
he wants to be right with God. He  
can have no rest until he knows that  
God has forgiven his sins. This is the  
foundation of all further Christian  
experience and life. When one re-  
ally awakes to the fact of his sin-  
fulness, he realizes that he is a sinner.  
He knows that he is a sinner. But  
there is forgiveness with God. But  
this fact can be known only by re-  
velation from God himself. Nature  
knows no forgiveness. No one in hu-  
man history ever knew, or felt abso-  
lutely sure, that God would forgive  
sin, except where that truth had  
been learned from the revelation of  
God through his holy prophets, his  
son of his written word, the Bible.

God alone can forgive sin, and only  
he can tell when sin has been forgiven.  
But he cannot forgive, except  
in a way that will be consistent with  
the requirements of justice and right.  
Criminal courts declared the defend-  
ant, right with the law, when that  
defendant proves his innocence. But  
those who need God's forgiveness  
are not innocent, they are sinners.  
They are wrong and guilty, and must  
be made right with the law and gov-  
ernment of God or suffer the pen-  
alty of his sin.

How can God forgive such? He  
cannot on the basis of any system  
which denies the Deity and atoning  
sacrifice of Jesus Christ. No possi-  
ble number of creatures could suffice  
to take the place of a guilty sinner,  
so that he might go free; all men  
would declare such a procedure un-  
just. To turn the guilty violators of  
the Divine law away without punish-  
ment, simply because they ask to be  
let off, would show such a disregard  
of righteousness on the part of God,  
as to lead to universal demoralization  
and the wreck of government, order  
and safety; anarchy would be uni-  
versal and hell everywhere. Unless  
God manifests his wrath sin and his  
love for the sinner, man would not  
seek, and God could not give, salva-  
tion.

This God has done in his own suf-  
fering on the cross, "Christ through  
his own blood entered in once for  
all into the holy place, having ob-  
tained eternal redemption." And so  
it has come to pass that God "might  
himself be just, and the justifier of  
him that hath faith in Jesus."

"Son, be of good cheer: thy sins  
are forgiven thee." This is the most  
gracious word ever spoken to a sin-  
ful man. The only fitness he requires  
is that you feel your need of him.

second result of getting salvation.

## JOSEPH PETROSINI

NEW YORK, March 14.—Lieut.

Joseph Petrosini, who has done  
more to stamp out the Black Hand  
in America than any other man, and  
who was shot and instantly killed in  
Palestine, Sicily, was on a mission to  
Italy, his native home, to do his part  
in keeping out of America the crimi-  
nal Italians. Petrosini was sent  
there under the direction of Police  
Commissioner Bingham of New York  
to establish bureaus, with a fund of  
\$30,000 raised by public subscrip-  
tion in this country, by means of  
which bureaus it was to be made pos-  
sible to apprehend any criminals  
sailing from Italy for America.

Lieut. Petrosini has been there  
about a year. Before leaving he was  
threatened, but this made no im-  
pression and he determined to go  
just the same. During his work in  
New York he has done more toward  
stamping out the Mafia, the Camorra  
and Black Hand than any other five  
men on the force. In this connec-  
tion he has gained the ill feeling of  
all criminal classes and it is due to  
this that he lost his life. He dies a  
martyr to his cause and the loss of  
his services will be a great blow to  
the world.

A Line of Talk

Two telephone girls were talking  
over the wire one afternoon. The  
subject of the conversation was a  
lawn party, which was to take place  
the next day. Both were discussing  
what they should wear and after  
five minutes had come to no de-  
cision.

In the midst of this important con-  
versation a masculine voice inter-  
rupted, asking humbly what number  
he had. The lack of reply did not  
seem to the inquirer, for he asked  
again for the number, but became indignant  
and scornfully asked:

"What line do you think you are  
on, anyhow?"

"Well," said the man, "I am not  
sure, but judging from what I have  
heard I should say I was on a clothes-  
line."—Philadelphia Public Ledger.

## STAG PARTY

Ludvig Kroner entertained at a  
stag party yesterday evening at his  
home in honor of Phillip Peterson.  
The evening was spent socially and  
everyone reported an exceptionally  
good time.

## PLEASANT SURPRISE

Mrs. James Hilton, 1521 Johnson  
street, was surprised by a number of  
her friends and relatives upon the  
occasion of her 42nd birthday. She  
was presented with a number of  
beautiful presents. Cards and other  
amusements were indulged in. Head  
prizes went to Mrs. Ida Furber and  
Joseph Andres, and the consolation  
awards were taken by Mrs. J. C.  
Parish and Charles Bartz.

## SOCIAL BRIEFS

A letter from Mr. C. H. Green-

wood who is at St. Augustine, Fla.,  
says that he is having a delightful  
time. At the time of writing he  
said that it resembled circus day  
there as they were celebrating the  
landing of Ponce de Leon in 1512,  
also the founding of the city in 1565.  
From St. Augustine he goes to Day-  
tona, Fla., where he will visit rela-  
tives. The weather is comfortable,  
though some days are a little cool.  
Mr. and Mrs. J. B. Funke are ex-  
pected there in a day or two on their  
way home.

Mrs. D. P. Smith and Mrs. D.  
Cunningham left this morning for  
Minneapolis where Mrs. Smith goes  
to meet her sister, Mrs. Delprat of  
Tacoma.

Mr. and Mrs. C. S. Van Auken and  
children left this noon for Chicago.  
Mrs. Ida Furber of Minneapolis is  
visiting friends in the city.

Mrs. George Thurber who has  
been spending the winter in Chicago  
arrived home Monday.

A woman tells how coffee kept her  
from insuring her life:

"I suffered for many years, chiefly  
from trouble with my heart, with se-  
vere nervous headaches and neural-  
gia; but although incapacitated at  
times for my housework, I did not  
realize the gravity of my condition  
until I was rejected for life insurance,  
because, the examining physician  
said, my heart was so bad he could  
not pass me. This distressed me very  
much, as I was a widow and had a  
child dependent upon me. It was to  
protect her future that I wanted to  
insure my life.

"Fortunately for me, I happened  
to read an advertisement containing  
a testimonial from a man who had  
been affected in the same way that  
I was with heart trouble, and who  
was cured by leaving off coffee and  
using Postum. I grasped at the hope  
this held out, and made the change  
at once.

"My health began to improve im-  
mediately. The headaches and neu-  
ralgia disappeared. I gained in flesh,  
and my appetite came back to me at  
once. Greatest of all, my heart was  
strengthened from the beginning and  
soon all the distressing symptoms  
passed away. Then I again made ap-  
plication for life insurance and had  
no trouble in passing the medical ex-  
amination.

"It was seven years ago that I be-  
gan to use Postum, and I am using  
it still, and shall continue to do so,  
as I find in it a guarantee of good  
health."

Increase Minimum Salary.  
A resolution was offered by Mr.  
Orlando Holway to amend rule 80 of  
the constitution which now places  
the minimum salary of a teacher at  
\$400 a year, whereby the minimum  
salary will be \$500. No action will

## TONIC PILLS FOR STOMACH TROUBLE

### A Wisconsin Woman Tells of the Wonderful Results in Her Own Case.

There are plenty of remedies by which you can relieve for the time heartburn, pain and gas on the stomach and can smother nervous sensations and induce artificial sleep. But when you take your next meal all your troubles begin afresh.

Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words, it needs a tonic that will rouse it to do the work of changing the food into nourishment. The tonic used ought to be one that will agree with the most delicate stomach.

Mrs. Elsie B. Macomber, a farmer's wife, of R. F. D. No. 5, Whitewater, Wis., praises Dr. Williams' Pink Pills very highly for the benefit she received from them for a severe case of stomach trouble. She says:

"I suffered with stomach trouble for a year and received no relief from the doctors' treatment. They didn't seem to know what ailed me and I continually became worse. Just before my sickness I had worked very hard and was all broken down in health. My stomach was so weak that I couldn't retain any food to amount to anything. I lived on light food for over six months and was reduced in weight to 85 pounds. I could not sit up and just had to lie down all the time. I would see dark spots before my eyes, especially in the morning on arising. I was dizzy all of the time and was in fear of falling whenever I stood up. I was getting weaker and weaker and had spells when I thought my breath would leave my body. I thought I would never get any better.

"A friend, who had used Dr. Williams' Pink Pills, recommended them to me. They seemed to be just what I needed and I got better at once. I took several boxes altogether and was cured. I shall always recommend Dr. Williams' Pink Pills for I owe my good health to them."

Every dyspeptic should have a copy of our diet book which is mailed free to any address. Send postal card request for a copy today. Dr. Williams' Pink Pills are sold by all druggists, or by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

## MORRISON SCARE FOR OIL TRUST MEN

(Continued from page 1.)

Morrison pointed out that one of the reports had been signed by mistake and that the signature had been scratched off so vigorously that the paper was torn.

How It Was Done  
After obtaining these reports, Morrison said, the Standard sent its salesmen to the territories occupied by the independents and undersold them. The secret rebates enabled them to do this. One favorite method he said, for crushing competition was the formation of bogus independent companies. These companies, he said, were sometimes heavy losers but they made it up after the independents were driven out.

"The contention that the independents cut prices and tried to undersell the Standard, is foolish," he declared. "Such a course was suicide."

The Standard is the one that cut prices and the public paid the freight. The Standard raised prices in some districts whenever it had to cut them somewhere else to crush competition.

ST. LOUIS, Mo., April 6.—"If combinations are permitted to continue; if you do not stop them, in time American citizens will be excluded from engaging in any enterprise and your children will become wage earners and mere employees of corporations."

This statement was made by Trust Buster Frank B. Kellogg today to judges of the United States circuit court hearing the government's suit to dissolve the Standard Oil company. Kellogg was analyzing the Sherman act and pointing out how its terms prohibited the formations of just such companies as the Standard. He paused a moment to speak of the effect of combinations.

Eventual control of all commercial enterprises by corporations, he says, will be the result of the growth of trusts.

"The Standard Oil company," he said, "is a combination that seeks to monopolize the market, limit output and stifle competition. It intends to deprive the public of the advantage of competition. It deprives the American citizen of the privilege to engage in business. He must confront a force that throttles his efforts."

"It is a ruthless, destructive, oppressive power in the affairs of this country. Under the Sherman law such a combination is unlawful."

Kellogg Defends Landis.  
Kellogg sharply criticized the decision of the United States court of appeals that overturned the Landis twenty-nine million fine. He was speaking of the rebates and secret rates by which the Standard was able to build up its business against its competitors. He charged that a secret rate was given the Standard by the Chicago and Eastern Illinois railroad from Whiting to Evansville.

"The rate was concealed in through rate charges," said Kellogg. "A secret tariff was maintained by the railroads for the benefit of the Standard. This was a violation of the law, regardless of any opinion to the contrary."

Asks for Dissolution.  
Before he concluded, Attorney Kellogg made a plea for the dissolution of the Standard Oil company.

"This court," he said, "has the power to grant an injunction against the defendant's preventing their engaging in interstate commerce. It may forbid commerce between this unlawful trust and the people and the governments of other countries."

Congress has given this court the power to prohibit the commerce of this trust. It has the power to regulate its affairs if they tend towards monopoly.

"The remedy is dissolution of the combination."

The Other Horn.  
"The full significance of this suit against the Standard Oil company has not dawned on the American people. If the government succeeds in procuring an order restraining the subordinate corporations from paying dividends to the Standard, it will hold in its hands an instrument with which it can at will destroy the integrity of every big enterprise in the United States."

Attorney Moritz Rosenthal, mouthpiece of the oil company, thus voiced the opinion of the magnates he represents. General demoralization of the country will result if a final adverse decision is rendered against the oil trust.

Not only may the Standard Oil company be dissolved, but also the railroad mergers, steel trusts, fish trust and all the great trusts that control the supply of the necessities of life. The dissolving of these organizations, in the opinion of the Standard advisers, will demoralize capital almost to a state of anarchy. Another panic of greater magnitude than the one out of which the country is just emerging would ensue and the people be the principal sufferers.

Technical Defense.  
The "brief of law" which the defense will file today outlines the arguments by which Rosenthal and his colleagues believe they will be able to wriggle out of the net of allegations the government has made against them. It is the most important of the documents the defense will file and will outline to the court the legal line of their defense.

The Standard relying on technicalities rather than facts has carefully guarded this document so that it would not fall into the hands of the government.

To a representative of the United Press, however, the case has been outlined. Here is the result:

Oil Trust Argument.  
"The law under which the government is proceeding in this case is that of the Sherman anti-trust act. The provisions of the act are that a trust is constituted by the uniting of competitive interests under one

## 20 Years With Heart Trouble

"Dr. Miles' Heart Remedy has cured me of heart disease of over 20 years' standing. I was so bad that I could not do my work, and could scarcely draw a full breath without fainting or smothering. The doctor told me he could do no more for me; then I commenced taking the Heart Remedy. I shall never forget that night. I slept better than I had before in months. I kept right on getting better, until I was perfectly well."

MRS. LAURA RUSSELL,  
Logan, Iowa.

When the heart action is weak, it fails to pump the blood through the lungs with sufficient rapidity. Then the lungs do not absorb the proper amount of oxygen, although they may be taking in a normal amount of air. The result is shortness of breath, smothering spells, difficult breathing, oppressed feeling in chest. Dr. Miles' Heart Remedy strengthens the heart nerves and muscles, and in this way increases the circulation.

organization for the purpose of ending competition and restraining others from engaging in the same trade. The merging of many concerns under a common ownership, not changing the identity of the owners but simply changing the form in which they hold it is not a trust.

"One owner or group of owners may own and operate an industry in its entirety, without violating the law. Proof in the case shows that the same group of owners since the sixties have owned the Standard Oil company since the sixties. The Standard Oil company is not a trust. It is a corporation. No trust in restraint of trade can exist under the conditions cited and the government's application of the Sherman act has no force."

Traces Ownership.

"The Standard Oil company and its subordinate corporations have been owned by the same group of men since 1879, and some of these companies by the same owners since 1872. Rockefeller and Archbold on the stand traced the ownership back to a time long antedating the Sherman act which was passed July 1, 1890. The contention of the government is that of Judge Taft's definition of a trust: 'A monopoly is an aggregation having control of a business or enterprise, which control was secured by use of improper methods such as unfair competition.'"

"Mere size does not constitute monopoly even though it involves exclusive control, unless such control is the result of a conspiracy or combination in restraint of trade."

Denies a Precedent.

"There is no similarity between the Northern Securities case, the case of the American Tobacco company and other cases cited by the government. The combination of the Northern Securities and American Tobacco cases were those of Standard Oil ownership is one of hitherto similar interests. The cases cited by the government also differ from the one at the bar in that they were sought to be accomplished after the passage of the law, while the present case is where the government seeks to dissolve an act consummated before the passage of the law."

NEARLY BROKE, HE SUICIDES

NEW YORK, April 6.—Finding that he had but \$28,000 left of a fortune that a year ago was estimated at several millions and believing that it was not enough to keep himself and his wife in the style they were accustomed to Captain Chambers M. Craig, a retired broker, shot and killed himself. He left a note to the coroner saying that he had been living "beyond his means" and advising his wife to invest the residue of his estate which he willed unconditionally to her in gilt edged securities and live on the income.

## AND SUNNY ITALY IS RESTING TODAY

THE STRENUOUS ONE IS GONE AWAY TO MESSINA

NAPLES WAS BADLY SHAKEN

Couldn't Have Stood Another Day of "Gay Life" With the Rough-Rider President

MESSINA, April 6.—Ex-President Roosevelt and Ambassador Griscom arrived at Messina at 2:20 o'clock this afternoon.

King Victor Emmanuel and Queen Helena met Roosevelt and the ambassador at Messina.

The Admiral was unable to dock owing to the fact that the quake damage to the water front has not yet been repaired. The landing was made in boats that put off from the Admiral.

The party immediately began a trip through the ruins, Roosevelt declaring that the extent of the damage was far greater than he had pictured. Roosevelt was greatly interested in the temporary village that was built outside the old city through the generosity of American contributions.

NAPLES, April 6.—Naples is today wondering how much commotion ex-President Roosevelt would have occasioned had he remained in the city the 36 hours that were originally scheduled instead of only the eight, the limit forced on him by unforeseen circumstances.

A reception at the arsenal, a luncheon at the Excelsior, a visit to the Duke and Duchess of Aosta, ride to Posillipo in automobiles, visit to the Naples Museum, dinner at the Excelsior, reception to friends and the boarding of the Admiral—eight distinct affairs in eight hours.

Naples is not sure that she could have furnished enough diversion had he stayed long in the city.

Sailing at midnight aboard the Admiral, Roosevelt is now well on his way to Messina where he should arrive this afternoon. The exact plans at Messina were not disclosed and it is understood that Roosevelt will go from the Admiral, accompanied by Ambassador Griscom, to the R. E. Umberto and there pay his respects to the king and queen of Italy.

Before the Admiral sailed, Roosevelt expressed a desire to see the ruins of Messina and the captain with a patriotic disregard for mail schedules, agreed to anchor at Messina as long as it pleased the colonel to remain ashore.

After leaving Messina, Roosevelt hopes for a lull, as he indicated to a few of his intimates that he has a lot of writing that he must get out of the way before the African hunt begins. As he draws near the scene of his hunt, his anticipation increases.

"I want to get at it," he exclaimed to the Duchess Aosta, after hearing her recite some of her exploits in the Uganda country.

## JOHN T. TEGEDER JOINS MAJORITY

John T. Tegeder, aged 84, died at his home, 1314 La Crosse street, yesterday afternoon at 5 o'clock of old age. He has been a resident of this city for about 26 years past. His wife is dead, having passed away seven years ago.

The deceased is survived by three children, Albert Tegeder, Mrs. Marie Puente and Mrs. Lizzie Puente, all of this city.

The funeral will take place from the house at 8 o'clock tomorrow morning and at 9 o'clock from the St. Joseph's cathedral, Father Sluyter officiating and Fessler & Dahl in charge.

## MOTHER OF N. A. MATSON EXPIRES

Word was received here today announcing the death of the mother of N. A. Matson of 2147 Market street, last night at Westby. The aged lady has been ailing for the past month and the family was at her bedside when she passed away. The arrangements for the funeral have not up to the present time been completed.

## ALASKA SWEEPSTAKE FOR WOLF DOGS

NOME, Alaska, April 6.—Carnival spirit reigned today along "the pike" and in adjacent mining camps over the finish of the "All Alaskan Sweepstakes," the race for dog teams from Nome to Candle and return, a distance of 412 miles.

Allberger's teams, numbers 1 and 2, finished first and second, respectively, carrying off the \$11,000 purse and the Sutter gold cup and deciding a pool of \$100,000 which had been wagered on the event.

Fourteen teams started. The largest wager was \$10,000 on the Siberian team, which maintained a lead for two days but became snowbound. The fate of several of the teams is still unknown.

The time of the winners was \$2 hours and 10 minutes.

## BADGER MEMBERS SPLIT ON THE RULE

(Continued from page 1.)

today that he was perfectly satisfied with the outlook.

"I would not be surprised," he said, "if the house itself should substitute the existing duties for those in the Payne bill, before sending that measure to the senate. Even if that should not be done I am confident of the ultimate result. The vote will be all one way—for the lower rates."

Strange on Tariff Mission.

Lieut. Gov. John Strange of Wisconsin is here conferring with the Wisconsin members upon the print paper schedule.

"I do not desire to bring any personal influence to bear upon the members and personally I do not care how they vote," he said. "I tell them how a change will affect the paper business. I am convinced it will drive it to Canada. If the members cannot agree with that view, I have no quarrel with them."

"After all the facts are before the legislature, he must decide his course of action in accordance with his conscience. I shall not and would not make a plea for a tariff on paper upon any personal grounds. The change proposed affects the wood pulp mills, my mill is not a wood pulp mill."

## HUGHES CALLS MR. JEROME DOWN HARD

NEW YORK, April 6.—That Gov. Hughes believes some of the things he reads in the newspapers was shown today when he peremptorily demanded of District Attorney Jerome whether or not the recent appearance of Stanley Ketchel, the middleweight champion, and Philadelphia Jack O'Brien, in which the latter was "knocked out," was a "boxing contest under the law" or a "prize fight in violation of the law."

He also demanded that the prosecuting attorney investigate the matter and "report forthwith."

It is admitted that the intent, at least, of the law has been violated and there is a rumor afloat which is generally cherished that if the bouts are not stopped certain officials will be brought up on charges by Gov. Hughes.

## CASTRO MAY BE PERMANENT EXILE

WASHINGTON, D. C., April 6.—The state department has been notified by the London foreign office that at the urgent request of Secretary Knox, the British government has decided not to permit Cipriano Castenion of regaining the Venezuelan land at Trinidad. Castro is aboard the Guadalupe due at Port au Spain April 10. He has announced his intention of regaining the Venezuelan presidency through a revolution if necessary. It is understood the government has also issued orders to prevent Castro landing at Colon, where the Guadalupe will arrive on April 15. The intention of the United States seems to be to make Castro a permanent exile, unless he chooses to land in Venezuela, which he may do at his peril.

## MURDERESS FREE; HER MIND RESTORED

SEATTLE, Wash., April 6.—Esther Mitchell, who killed her brother, Geo. V. Mitchell, because the latter killed Joshua Scofield, founder of the Holy Rollers' sect, by whom the girl was converted to the sect, today was released from the insane asylum at Stellacom, where she has been confined since the tragedy. She has been pronounced cured and today she said she had no further desire to rejoin the sect, one of the rules of which, it is said, requires members to discard clothing as a worldly frill. The girl will return to her home at Corvallis, Ore.

## LINKER BUILDING TRANSFERRED TODAY

Attorney Fred H. Hartwell today filed with Register of Deeds Aiken a deed transferring the Linker building and other property belonging to the Linker Brothers to the Linker Realty company. The consideration expressed in the deed is \$100,000. The instrument is one of the steps in the change of the method of doing business from a partnership to a corporation. It is understood that changes may be made in the Linker building in the future but nothing definite is yet determined.

SALOONS CLOSE AT DARK

LINCOLN, Neb., April 6.—Gov. Shallenberger this afternoon signed the "daylight saloon bill," which commands all saloons in the state to close their doors at 8 p. m. The law takes effect July 1. Temperance and church organizations throughout the state will hold a jubilee to celebrate their victory.

## S.S.S. REMOVES BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S. S. S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S. S. S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write.

#### BILL IMPORTANT TO ALL UTILITIES

MADISON, Wis., April 6.—(Special.)—The most important legislative proposition affecting public utility corporations since the enactment two years ago of the public utilities law to give the railroad commission jurisdiction over these corporations and their properties is the Berner bill, No. 333A, upon which another hearing will be held a week from next Thursday by the transportation committee of the senate and assembly sitting jointly. In the meantime members of the legislature are at their home getting the views of their constituents on the measure. The bill is a brief one, but most important in its provisions, as it provides that the indeterminate feature of the public utilities law of 1907 shall apply in mandatory way to all public utilities of the state, except street railways, and these may be included if the Milwaukee common council makes such request. An indeterminate permit is in fact a perpetual franchise with exclusive features, but when this provision was put into the law of 1907 the framers coined the new word, indeterminate permit because they feared that the people would take fright at the thought of giving public utilities perpetual exclusive franchises. Under an indeterminate permit a company furnishing service in light, heat, gas, power or electricity becomes subject to the railroad commission in the matter

of fixing rates and regulations, and is protected from competition within its territory. No other company can be franchised for the same service so long as the company having the indeterminate franchise is able to supply the community. The law of 1907 gave public utilities operating under local limited term franchises the right to surrender their franchise and take in exchange indeterminate permits. Fifty companies came in before the time limit expired, and the proposition now is to make this feature of the law apply in mandatory way to all public utilities furnishing service of light, power, gas, water and electricity. The railroad commission approves the bill, having recommended it in the last annual report, but considerable opposition is developing from utilities around the state.

#### STONE ILL, AND HIS JOB IS VERY SICK

MADISON, Wis., April 6.—(Special.)—Following his startling revision of testimony before the senatorial investigating committee, Chief Game Warden J. W. Stone has placed himself under medical care at a Prairie du Chien sanitarium. In his absence Deputy Game Warden W. C. Haslem of Appleton has taken charge of the department and following a long interview between Haslem and the governor yesterday at the executive office it was reported that Mr. Stone would be appointed chief. The report gained strength through the fact that Stone's term of office will expire next June and that in view of his admission of perjury his reappointment would be to say the least inadvisable. Mr. Haslem on the stand testified that his activity in Stephenson's behalf was confined to the period of his vacation and that he did not take the state's time and during his testimony he told the committee that he had never been asked by Gov. Davidson to do any political work.

It was also reported yesterday that Mr. Stone had resigned, but Gov. Davidson denied this.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints causing rheumatism. O. T. Erhart.

Men who say they were driven to drink would doubtless have arrived sooner or later anyway.

### IN THE NATION'S CAPITAL

(Continued from page 3.)

and that when it comes to the distribution of committee places, there will be a reckoning with some of these men who are now openly in opposition to the house organization.

Representative Nelson and Senator La Follette have had up with the engineer's department and have secured an order directing that an investigation be made of the government levee at Portage with a view to determining what action should be taken by the government with reference to this levee. Major Bromwell, in charge of the Milwaukee district, will make the investigation and report.

The condition of the Portage levee is a demonstration of the fact that it is unwise to get appropriations through congress for work which is not recommended by the particular departments charged with the maintenance of the work. The original appropriation for this levee was made notwithstanding the opposition of the war department. The department took the ground that it was not necessary for the government to expend money at that particular point for the purpose of protecting navigation. When first directed to do this work the department refrained from complying and neglected for two years to do the work under the appropriation which had been made. Finally when specifically directed by a subsequent act of congress the levee was constructed. That was about 1890. From then until 1900 the government maintained the levee but since 1900 no money has been expended for the purpose of keeping it up, the department still holding to the theory that it is not necessary for the purpose of safeguarding navigation. The present action is taken with the idea that the government may declare a policy so that if it becomes evident that nothing more is to be done that the state or Columbia county may take such measures as will protect the farming country which lies between the Wisconsin and Fox rivers. These rivers are not more than two miles apart at Portage and unless the levee of the United States government is repaired the intervening country may be subject to disastrous floods during the spring of the year when the water in the Wisconsin river rises to a very high stage.

### Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that almost every one of the women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases. Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

## LILY WILL SOON COME UP RIVER

The light house tender Lily is expected to make its first appearance on the waters of the upper Mississippi within a few days, on the first trip of the season. With the opening of navigation, the government lights along the river are expected to be put in proper shape for the coming season. The crew of the Lily is performing its customary work of distributing the supplies, repairing the lights, and removing them where necessary. The snag puller MacKenzie will soon be seen in this vicinity on its initial trip of the year.

Captain James Whistler, known during the pioneer days of steamboat traffic on the upper Mississippi as one of the best pilots in the business, died at his home in Clinton, Ia., Thursday, after a short illness of pneumonia. During his time on the river he amassed a following of friends from St. Louis to St. Paul, who will be grieved to hear of his death.

## P. O. RECEIPTS ARE 20 PER CENT MORE

The quarterly report of the post-office ending March 31 shows an increase of over 20 per cent over the same period last year. The total receipts of the office for the last quarter were \$13,995.87. Part of this increase is due to the Salzer Seed company which is doing an enormous business this season.

## APPEAL TO SKIN SUFFERERS

If You Have a Friend Afflicted With Eczema, Tell the Druggist About It

If you have a friend suffering from eczema, tell us about it the next time you are in the store.

Many eczema sufferers have tried so many useless remedies and spent so much money with doctors that they practically despair. If they only knew of the simplest home cure for eczema! It is nothing more than a little of wintergreen compound (as mixed in D. D. D. Prescription.)

Used with glycerine, thymol and other healing ingredients in liquid form, this simple remedy penetrates the pores of the skin, killing the eczema germs while toning up the healthy part of the skin.

If you will suggest to your friend afflicted with eczema to call, we shall be glad to explain to any sufferer about D. D. D. Prescription, Hoeschler Bros.

## The Best Cough Syrup Is Easily Made at Home.

It is not much trouble to make the cough syrup suggested in this recipe—any woman can prepare it in five minutes. It does the work quickly and is much cheaper and better than the cough and cold medicines you buy.

Put 2 1/2 oz. of Pinex in a pint bottle, then fill up the bottle with Granulated Sugar Syrup, made as follows: Take one pint of Granulated Sugar, add one-half cup of water, stir and let boil just a moment. Take a teaspoonful every one, two or three hours, as required. The taste is very pleasant, and if kept well corked, it never spoils. It is equally good for all members of the family, regardless of age.

The results from this simple home-made article are surprisingly prompt. It breaks up a cold quickly and usually stops a deep-seated cough in twenty-four hours.

In making this, however, do not expect good results by using any of the numerous pine oil or pine tar preparations. None of these compare with the real Pinex itself, which is the most valuable concentrated compound of Norway White Pine Extract. All druggists have it or can get it very easily on request.

The Pinex should cost about fifty cents; Granulated Sugar, about four cents; total cost of a full pint of this unequalled mixture, fifty-four cents.

## WILLIE HOPPE

One of the greatest billiard players in the world—but youngest in years—is Willie Hoppe, known as the "boy wonder." Hoppe, who recently claimed he would break the so-called "billiard playing trust," is after matches with the stars. He wants to play George Suttin, George Slosson, Calvin Demarest or any other expert with the cue. Just now Hoppe is giving exhibitions throughout the country and is making a decided hit.

To say that he is a "wizard" is putting it mildly. He can make a set of billiard balls do anything but talk, and some followers of the green cloth even believe that in time he will make the ivory whisper.

## WOMAN GOES TO JAIL RATHER THAN PAY UP

CHICAGO, Ill., April 6.—Rather than pay a judgment of \$209.30, awarded to one of her tenants, Mrs. Emma E. Kershaw, a wealthy woman, has permitted herself to be incarcerated in jail and today she announced her intention to "stay there until she rots" rather than pay the debt. She refuses to permit her husband to seek a writ of habeas corpus and he announced today that he fully approved her course.

Mrs. Kershaw owns a flat building and Mrs. Belle McClelland had difficulties with her over cold steam pipes. After a meeting between the two women, Mrs. McClelland sued Mrs. Kershaw for \$10,000 damages alleging assault. The jury awarded her \$195 and the costs.

Mrs. Kershaw would not pay and Mrs. McClelland will have to pay her board at the county jail during her incarceration. The prisoner is a suffragette.

## ORATORICAL BOMBS CLOSE CAMPAIGN

FIREWORKS AND REFRESHMENTS LAST EVENING

### BOTH PARTIES WORK TO LAST

Speakers Fly About the City in Auto and Final Efforts for Votes are Strenuous

The final wind up of the democratic campaign was consummated at the Concordia hall last night in a social gathering for the voters of the First ward. Mr. J. B. Murray, in his jovial manner, took charge of the entertainment. The first speaker introduced was Olaf R. Skaar, who in a short speech urged the voters not to repudiate the record of the past ten years by electing a republican ticket. He lauded the democratic ticket from top to bottom and closed with a few laudatory remarks in favor of Gus Keller, saying that with a new mayor the present alderman from the First ward was an absolute necessity to the welfare of the council and that it was up to the voters to see that he was re-elected.

A. C. Wolfe then mounted the platform and spoke a few words about the tax question, saying that the republicans in their promises were insincere. He urged the necessity of going to the polls early and to stand by the past record of the party.

During the intermission which followed, refreshments were served. After the refreshments short speeches were made by Ori J. Sorensen, J. T. Day and Wm. Fries. One of the most pleasing events was several musical numbers by a quartette composed of Messrs. Cummings, Curtis, Davis and Selvert.

**At Centennial Hall**  
Preceded by the Third ward marching club, with its band and fireworks, the voters in the south end of the city assembled at the Centennial hall last evening to hear A. H. Schubert and W. F. Wolfe make their final pleas in behalf of the democratic party. The crowd was a large and enthusiastic one and cheered the speakers repeatedly.

**Republicans End Campaign**  
Republicans concluded their city campaign last night at midnight, when the meeting at Snow Plow hall was adjourned.

Under the leadership of Attorney A. E. Bleekman, chairman of the city committee the candidates were put through a strenuous day yesterday, and from early morning till midnight they were paraded in different parts of the city.

Five meetings were held last night and by the aid of Frank Allen's big Jackson touring car the aspirants for office were whisked from one gathering to another. Dr. Suter, John Swan, Frank Allen, George Haganah, Edward Cronon, Otto Bosshard and E. C. Raymond began the speechmaking at Kisselbach's hall on upper George street and from this point they were carried by automobile to the several meetings in different parts of the city, ending at Snow Plow hall accompanied by City Republican Chairman A. E. Bleekman.

### McCONNELL BILL HEARING APRIL 13

(By Fred L. Holmes.)  
MADISON, Wis., April 6.—When the members of the legislature return on Monday evening, April 12, they will find nearly 200 bills posted on the bulletin boards for public hearing during the week. The different committees are attempting to work the bill off. The noticeable feature of the hearings will be that the assembly committee will consider senate bills and vice versa. This indicates that the legislature is getting down to strenuous business, and that the bills that have passed one house are now being considered by the other branch.

Some very important hearings are scheduled. The assembly committee on education will take up the bill on April 14, for the creation of a board in each county of five members, which will elect the county superintendent of the county for a term of two years. As this bill was reported in by the committee on education it is believed it will be recommended favorably.

The McConnell bill for the rotation of names on the primary ballot will be given a hearing by the committee on election April 13. Assemblyman McConnell recently said he believed this bill would give every man who wished to be a candidate for office an equal chance and would deprive the man, whose name began with the first letter of the alphabet, of any advantage over any other candidate. Assemblyman Domachowski's bill for a closed primary will be given a hearing the same day as the McConnell bill, and the Cady bill for nomination and election at the primary is slated for discussion the same afternoon.

### ATTACK BY MADMAN

FOND DU LAC, Wis., April 6.—Ald. L. P. Hinn, a well known physician, was the victim of a murderous attack Sunday night by a maniac. Dr. Hinn was called to the residence of Samuel Daniels to attend Daniel's wife, who was suffering from facial neuralgia. When he entered the room he was attacked by Daniels and interference by the woman was all that saved his life. Daniels was later captured by the police after a sharp fight.

It is superfluous to say that a girl has gone to another town "to visit friends," the natural inference is that she is not visiting enemies or stopping at a hotel.

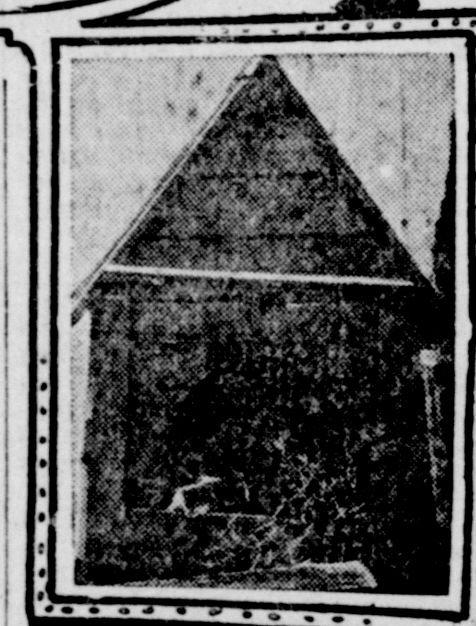

## HUBBY HOUSED HER IN KENNEL

Mrs. Ginzela Skwarck and the dog kennel in which she was forced to take refuge, according to her bill of divorce.

CHICAGO, March 22.—That she was driven from her home and forced to take up residence in a dog kennel as the only protection against her husband's anger and the cold, was the charge made last week by Mrs. Ginzela Skwarck against her husband, John Skwarck, at the hearing of the divorce proceedings between the two. To disprove the assertions of his wife, Skwarck brought the kennel into court as evidence to show that a woman the size of Mrs. Skwarck could not possibly squeeze herself through the narrow opening in the dog house.

Mrs. Skwarck told the jury a long story of frequent quarrels between her husband and herself and said the dog kennel was the last resort when her husband, flourishing a revolver and a knife, drove her forth into the cold. She admitted that the door under ordinary circumstances would be too small for her to squeeze through, but with an angry husband armed to the teeth and close in her rear, she made wonderful progress towards diminishing her girth and width. As she made the final squeeze Skwarck, she says,

reached the door of her fortress and dashed her arms and wrists with a knife.

The jury carefully measured the door of the kennel and took a bird's eye observation of the physical possibilities of the situation.

The case is attracting considerable attention because of its unusual evidence, and because of the fact that the defendant brought the dog kennel into court as his principal defense.

## AT THE BIJOU

There is a classy bill at the Bijou this week, all the numbers being good. Capacity business was the rule at both performances last night.

Miss Marie Fitzgibbons, singing comedienne, had the unenviable position of opening the bill. The rather difficult task of warming up an audience did not seem to affect her in the least. She possesses a true musical voice and tells her stories with a distinct enunciation that is well nigh perfect. Miss Marie is of the pale blonde style of beauty and has a very neat stage presence. She was encored and took several bows and retired a high favorite.

The Tora Japanese family are a small sized circus in itself. The cast is a combination of four distinct specialties and includes foot posturing, juggling, sword walking and magic. The foot posturing was very cleverly done and the same can be said of each turn. The walking on the sharp sword by the barefooted female member of the troupe put the audience's teeth on edge for some time and was the thriller of the offering. They were very well received.

Nat Bernard and Lew Orth in presenting a Legal Mixup introduce

H. CARR  
Lyric Tenor Who Sings the Illustrated Songs at the Bijou

some very amusing tangle-talk. Their German dialect is rich with the flavor of fricased frankfurter and deliver their spell to make the points count. They do not roll their "r's" too much. The appearance of the comedians are Webber-Fieldian but they use their own methods and employ their own material of which they seem to have an overabundance. The appeal of Bernard to the supposed jury for the \$10,000 claim for his client fairly convulsed the audience. Lew Orth as the fat, squat German was a good counterfoil for Bernard leading work. The team was encored many times and had a new parody for every encore. They were a strong hit.

Mademoiselle Victorine and the Zolars have a very pretty singing novelty and dancing skit. Pretty faces, shapely limbs and rich costumes combined with sweet voices and clever dancing composes an offering of excellent merit. Miss Victorine as a premier danseuse ranks above any in her line here before. The feature of the offering is the singing of "The Lazy Moon" by the girlish trio. A black back drop studded with scintillating stars that glittered in the subdued light like diamonds offered a beautiful background to a large crescent shaped silver moon on which reposed Mlle. Victorine. The splendid effects of this scene was enhanced by the ascending and descending of the orb of night with its lovely burden. The offering is a decided novelty and scored in kind.

Mr. H. Carr, the new illustrated song singer, possesses a very pleasing tenor voice of good range and sang with good understanding "Naoma." The Bijou scope offers something good in the moving picture line. "Saved by the Dog," a story of canine sagacity and pathos is very interesting. "He Who Laughs Last, Laughs Best," illustrates the fact that love will always find a way.

### WHEELER, HYZER AND GORDON—WHAT'S UP?

WASHINGTON, April 6.—The impression prevails in Washington that the Chicago and Northwestern railroad is particularly close to certain political influences in Wisconsin. As an evidence of the trend of political affairs many Washington eye brows were lifted high when it was announced here that W. G. Wheeler of Janesville had tendered his resignation as United States district attorney for the Western District of Wisconsin to accept the local attorneyship of the Northwestern railroad and that E. H. Hyzer of Milwaukee would become the general counsel of the Northwestern to succeed Lloyd W. Bowers who has been appointed solicitor general in the attorney general's office, while George H. Gordon, Chicago & Northwestern attorney at La Crosse, has been named by Senator Stephenson to be district attorney for the Western District of Wisconsin.

**LEAVE FOR LEMMON**  
BARRE MILLS, Wis., April 4.—Mr. Fred Schild, who was married here March 24, to Miss Mary Miller of Barre Mills, left last Tuesday for his future home at Lemmon, S. D. Mrs. Henry Schild and children, and Mrs. Fred Schild left Thursday morning for Lemmon, S. D. They will also visit at Manchester, S. D., with Peter Schild and family.

It has been said that misfortune teaches people fortitude, but as a matter of fact, few of us care for fortitude.

## WHY RUPTURE IS CURABLE

Seeley, The Recognized Truss Expert, Now At The Stoddard Hotel.

"Rupture is not a tear or breach in the abdominal wall, as commonly supposed, but is the stretching or dilation of a natural opening," said F. H. Seeley, the Chicago expert, now stopping at the Stoddard hotel.

"With the 'spermatic shield' truss we retain any case of hernia at once, and close the opening in a few days on the average case."

This instrument received the highest award at the International Medical congress in London, Eng.

Mr. Seeley will remain in the city this Tuesday and Wednesday only, and says if any interested persons call during his stay he will be glad to show same without charge or fit them, if desired.

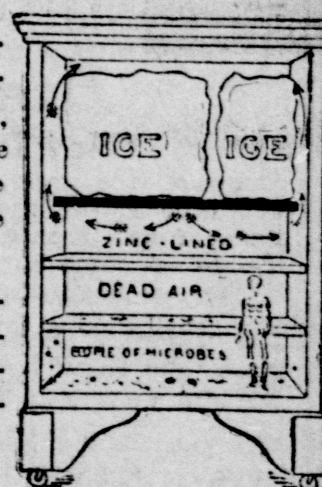

## Herrick Refrigerators

Not one of them Zinc Lined

You are particular about where your meat, butter, milk, vegetables, come from. Why not be particular where they are kept?

A good refrigerator may save doctor's bills by keeping you from eating tainted food.

A "Herrick" costs no more than the poor kind.

All walls and doors of our refrigerators heavily packed with mineral wool (one of the best insulators) and also heavy sheets of insulating paper. Our insulation is double that generally used and is very superior.

The finest system of circulation. A continuous, pure, cold, dry air forced to every square inch of interior, keeping it always dry, sweet and clean. No mould, no taint. Air is purified at every circuit all gases and odors carried off. Articles highly susceptible to orors stored with fruits, vegetables, etc., without taint. Fruits dry instead of decaying.

## NOVELTIES for EASTER

Buying novelties—neckwear especially—is nothing short of a “gamble” for the merchant, for all you can do is guess what will be the popular fad. We’ve guessed wrong sometimes but not this spring. Our selections were exceedingly fortunate for we’ve got just what the ladies are hunting for. Come and see these dainty creations—you’ll be more than delighted with them.

### Women's Neckwear; Exclusive Easter Styles in Great Profusion

With Neckwear absolutely essential to the completion of the Easter costumes, we have undoubtedly combined in our displays a collection of charming, exclusive new designs which are representative of the latest and best effects coming from every source, American and European.

Jabots continue in great favor, especially for wear with Dutch or linen collars, 25c and 50c. Stocks, Ascots, Bows, Ties, etc., are shown in many attractive styles, 50c, \$2.00.

Ruchings are shown in the latest Paris fashions in the narrow, medium and wide widths—yard 25c.

A splendid assortment of Linen Collars, popular this season, 10c to 25c.

Dutch Collars are already having an immense sale both here and abroad. Our selection consists of fully two hundred styles—some in Crochet Lace, Linen and Embroidery, Lawn, etc.—priced from 25c to 50c.

### Hand Bags New Easter Shapes

Some of the prettiest novelties this season has ever shown are to be seen in the Hand Bags of new bronze leathers with bronze metal frames—some have the frames covered with leather—\$3.50 to \$10.00.

The “Empire” Hand Bag in patent leather, black and colored seal and English morocco leathers—very new—from \$5.00 to \$15.00.

Women's Hand Bags in black seal, English morocco, sea lion, pigskin and vachette leathers—some fitted with large coin purse, others with coin purse and card case, 50c to \$10.

### Exclusive Hexagonal Mesh Veilings

Novelty Veils and Veilings in exquisite new meshes have never been shown in such profusion as in our present Easter displays. Our research for refined and exclusive designs has been singularly successful.

One of the most distinctive novelties is the latest French conception—“Embroidered Squares” and tiny coin dots on hexagonal mesh; chenille cabochon dots on fancy maline, imported glace chiffon and fringed Veils.

## HEAVEN IS MOST BEAUTIFUL PLACE

REV. SHUTE'S DESCRIPTION  
WINS TWO CONVERSIONS

SINLESS LIFE IS REQUIRED

If Man Will Agree to Do Right His  
Future Happiness Is Certain,  
Says Minister

“Heaven—Where and What Is It?” was the theme of the third sermon preached yesterday by Rev. A. Shute at the First Methodist Episcopal church. There were several conversions during the day; and two, a man and his wife, last night, following the sermon on Heaven. Mr. Shute preached from the text in Hebrews 11:10, “He looked for the city which hath the foundations, whose builder and maker is God.” He said in part:

“Amid the changes and uncertainties of life, Abraham was looking for the abiding, the city with the

foundations. We are interested in heaven, because we propose to make it our future home.

“Heaven is somewhere. Said Jesus, ‘I go to prepare a place for you.’ Home is where father and mother are. Our heavenly home is where the Christian's Father is—where God is: ‘Our Father who art in heaven.’ Jesus taught us to pray, ‘Heaven is where Christ is: I go,’ he said, ‘to prepare a place for you, that where I am, there ye may be also.’ The chief attraction of heaven will be the presence of Jesus. When the mother died, her little girl, unable to find her in the house, did not want to stay there any longer; there was no more attraction there without mother.

A Place of Beauty  
“Heaven is a place of beauty. The wonderful description in the Revelation, though figurative, is intended to be the basis of our faith. Heaven is the seat of the royal palace, the court of the universe. It is the place of rest. From the tiresome rush of this life we shall find relief in the rest which remains for the people of God. The church is not a parlor, but a camp; this world is a battlefield. The only way to be ready to enjoy the rest of heaven is to have the day of life full of toil for God. And yet heaven will not be a state of inactivity. It will be full of exhilarating action in the service of the King; for ‘His servants shall serve him.’

“Heaven means the perfection of our being. Freedom from bodily ills; our bodies shall be glorified, and we shall not hunger nor thirst nor be sick, and death shall be no more. Mental darkness will have vanished forever, and that life will be one ever ascending and broadening, affording untrammelled and unlimited possibilities to the human mind. But especially does heaven mean a perfection of moral and spiritual personality. There they are ‘without fault before the throne of God.’ Heaven is the confirmation of the holiness begun on earth. But we must begin it here; for concerning such only is it said there, ‘he that is holy, let him be made holy still.’ Perfected in body, soul and spirit, there we shall be clothed with the fine linen which is the righteousness of the saints. We shall be like Jesus when we see him even as he is.

Only One Law There  
“Heaven is the final perfection of society. There universal and perfect obedience will be rendered to the will of God. In that country there is only one law, the law of love. And there is never an act, thought, word or feeling of suspicion out of harmony with the absolute law of love to God and love to everybody else. We are taught to pray, ‘Thy will be done on earth as it is in heaven.’ The answer to that prayer is the only possible solution to the world's social problems. In heaven we shall find its perfect realization. Here it is the Christian's business to transform the world into harmony with this law of love and thus prepare men for heaven, while at the same time furnishing the only possible solution to the problems of this life.

There we shall realize the fullness of glory and of joy; for in his presence is fullness of joy, and at God's right hand there are pleasures for evermore. It is in such a place that Jesus is preparing a mansion for his redeemed ones. There it is where he exhorts us to lay up our treasures, because that home will never burn down and no thief will ever break through or steal. Have you made your arrangements for a mansion in heaven? Those who find a place for them who have made their arrangements in advance, and against all others the door will be shut.

Is Worth Gaining  
“Heaven is worth gaining, not only because of its great value, but also because it will continue for ever. Those who once enter there will ‘go no more out forever.’ The righteous enter into eternal life. It will be worth a lifetime of earnest effort to reach heaven, in order to be associated forever with those who are going to live there. The Triune God will be the king of that country and the holy angels make heaven their home. Abraham, Isaac and Jacob and all the prophets will be in the kingdom of God, and with them the redeemed of all ages, who have washed their robes and made them white in the blood of the lamb. Many of us can sing ‘Many loved ones have I in my heavenly throng; they are safe now in glory.’ The question is, Are we in the way there, and are we doing all that we might to make sure that our loved ones and others reach at last that home of the blessed? Association here with the greatest and purest souls of earth, is an unspeakable advantage. What will be such an eternal fellowship, with no counteracting influences?

The Separation of Good and Bad  
“For there sin and those who love sin will never enter. And there shall in no wise enter into it anything unclean, or he that maketh an abomination and a lie. Heaven is the final separation of all the good from all the bad, of the holy from the unholy,

of the saved from the unsaved. Absolute loyalty to the king of that country, Jesus Christ, must be universal. No others can find admission, but only they that are written in the Lamb's book of life. Absolute and unconditional surrender to Jesus Christ, is the condition of salvation here and of the entrance to that home of God in eternity. And no condition could be more reasonable. It is the sovereign's right to rule, and our's only to obey. Sin is rebellion; in order to be saved and right with God, we must cease our rebellion and surrender to the rightful rule of the Almighty. Then we shall be blessed with his fellowship here and enjoy God forever.

“And this is what Christianity offers: that we should be saved here and now from the stain and guilt and love of sin; that we should have the strength divinely given to enable us to live the righteous and holy life in this world of sin; that we should be fellow workers with Jesus Christ in building the kingdom of righteousness and peace and love in this world; and that we should come at last to his own home forever in heaven, to the final perfection of our being after the likeness of the perfect stature of Christ Jesus. Where in the realm of human thought is such a conception to be found outside of the Bible, the revelation of God? And all this is for you, on the condition that you are willing to be separated from your sin and trust and obey Jesus Christ. And what more could any man ask.”

Mr. Shute preaches tonight on the first result of salvation. “The most gracious word ever spoken.” Other results follow the next two nights, and then the answer to the question, how may I know that I am saved?

WORDS TO FREEZE THE SOUL  
“Your son has Consumption. His case is hopeless.” These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield, N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. “After three weeks use,” writes Mr. Blevens, “he was as well as ever. I would not take all the money in the world for what it did for my boy.” Infalible for Coughs and Colds, its the safest, surest cure of desperate Lung diseases on earth, 50c and \$1.00. O. T. Erhart guarantees satisfaction. Trial bottle free.

### KING FINDS LOCAL MILITIA EXCELLENT

General Charles King, U. S. A., conducted regular inspection of Company M of the Wisconsin National guard Saturday. The men made a fine appearance and went through the various drills and tactics with faultless precision. General King seemed well satisfied.

Last night he inspected Company B at its army on South Seventh street and found this company in the same excellent condition.

During the spring every one would be benefited by taking Foley's Kidney Remedy. It furnishes a needed tonic to the kidneys after the extra strain of winter, and it purifies the blood by stimulating the kidneys, and causing them to eliminate the impurities from it. Foley's Kidney Remedy imparts new life and vigor. Pleasant to take, O. T. Erhart.

### SCHUBERTS WILL BUILD THEATRES

LOS ANGELES, Cal., April 6. — Blocked in their efforts to secure a foothold on the Pacific coast by leasing theaters here and in San Francisco, the Schuberts, through J. J. Schubert, are considering plans for building playhouses.

“We'll establish a coast chain,” said Schubert today, “whether we are compelled to lease, build or buy houses.”

Harduppe—Hello! Borrowell. How do you find things? Borrowell—Pretty tough. I don't come across many people who are willing to “give up” during Lent.

### If Constipated Test It Free

Every year intelligent people are dressing more lightly and paying more attention to their health. If a person eats what is sufficient for his bodily requirements he will give the blood plenty of strength to warm the remotest points of the body. It is, as you see, much more a question of blood than of heavy clothing, but the stomach and bowels, nevertheless, regulate the quality of the blood. The first importance is the daily movement of the bowels, so that the waste matter may be carried from the system and not get in the blood. If a person has less than one movement of the bowels in each 24 hours, he or she is constipated. If constipated there is no better cure than Dr. Caldwell's Syrup Pepsin. It cures so permanently and scientifically that eventually you will be able to do without medicine of any kind, and that is the point you are aiming at. You cannot expect permanent results from salts, powders, cathartic pills or purgative tablets. They are at best but temporary relief. Dr. Caldwell's Syrup Pepsin, being a laxative tonic, will cure the trouble and so tone the digestive organs that they will soon learn to do nature's work without assistance. That is the experience, among others, of Mrs. Benson, of Kewanee, Ill., and John M. Neeskens, of Bennett, La. This wonderful herb laxative compound can be obtained of any druggist at 50 cents or \$1 a bottle. Frequently in itself able families keep it steadily for just such emergency. If, however, you have never used it and would like to try it before buying, send your name and address to the doctor and a free test bottle will be forwarded to your home. The results will speak louder than our words. Write today.

If there is anything about your ailment that you don't understand, or if you want your medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 524 Caldwell bldg., Monticello, Ill.

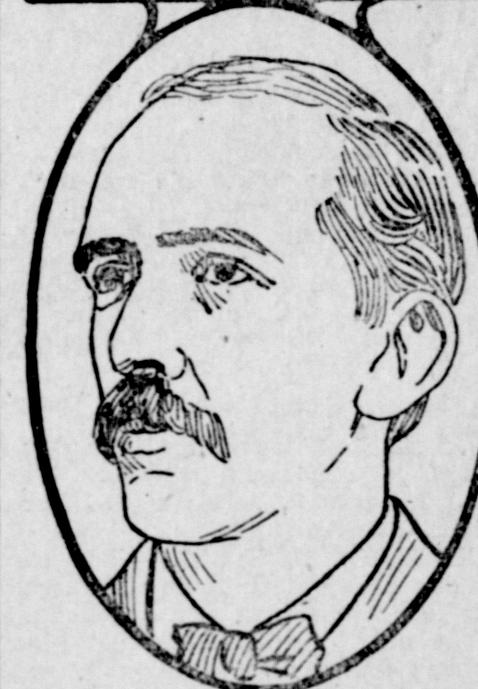

## PILES La France

“I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man.” George Kryder, Napoleon, O.

Pleasant, Palatable, Potent, Taste Good, Do Good. Never Sicken, Weaken or Grip. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C.C.C. Guaranteed to cure or your money back. 503

### OPPOSING FORCES IN LABOR STRUGGLE

THOMAS L. LEWIS

Conflicting reports regarding the present status of the miners' strike in Pennsylvania are emanating from Scranton. Both the miners and the mine owners apparently are well prepared for a struggle, although it is hoped that the differences may be settled without a strike. Thomas L. Lewis on the one hand, as head of the miners' union, states that there is \$7,000,000 available for the miners in the event of a strike. He declares that the men will not be bluffed. Opposed to this comes the statement of Archibald F. Law, vice president of the Temple Iron company, and Baer's spokesman. He says they have 12,000,000 tons of coal on hand, and will not recognize the union.

### WILL INVESTIGATE AFFAIRS IN LIBERIA

BOOKER T. WASHINGTON

Robert C. Ogden, New York Philanthropist, and Booker T. Washington, President of Tuskegee Institute, WASHINGTON, D. C., April 3.—With the appropriation of \$20,000 by congress to defray the expenses of a commission appointed by the state department to go to Liberia and investigate the affairs of this little African republic, it seems that the United States has at least awakened to the crisis of her protege across the Atlantic.

Robert C. Ogden, a prominent New York philanthropist, and Booker T. Washington, president of the Tuskegee institute, are to compose this commission, as has just been announced by the state department, and they are making preparations to leave at once.

### SHOE for WOMEN

### Foot Ease and Style While Shopping

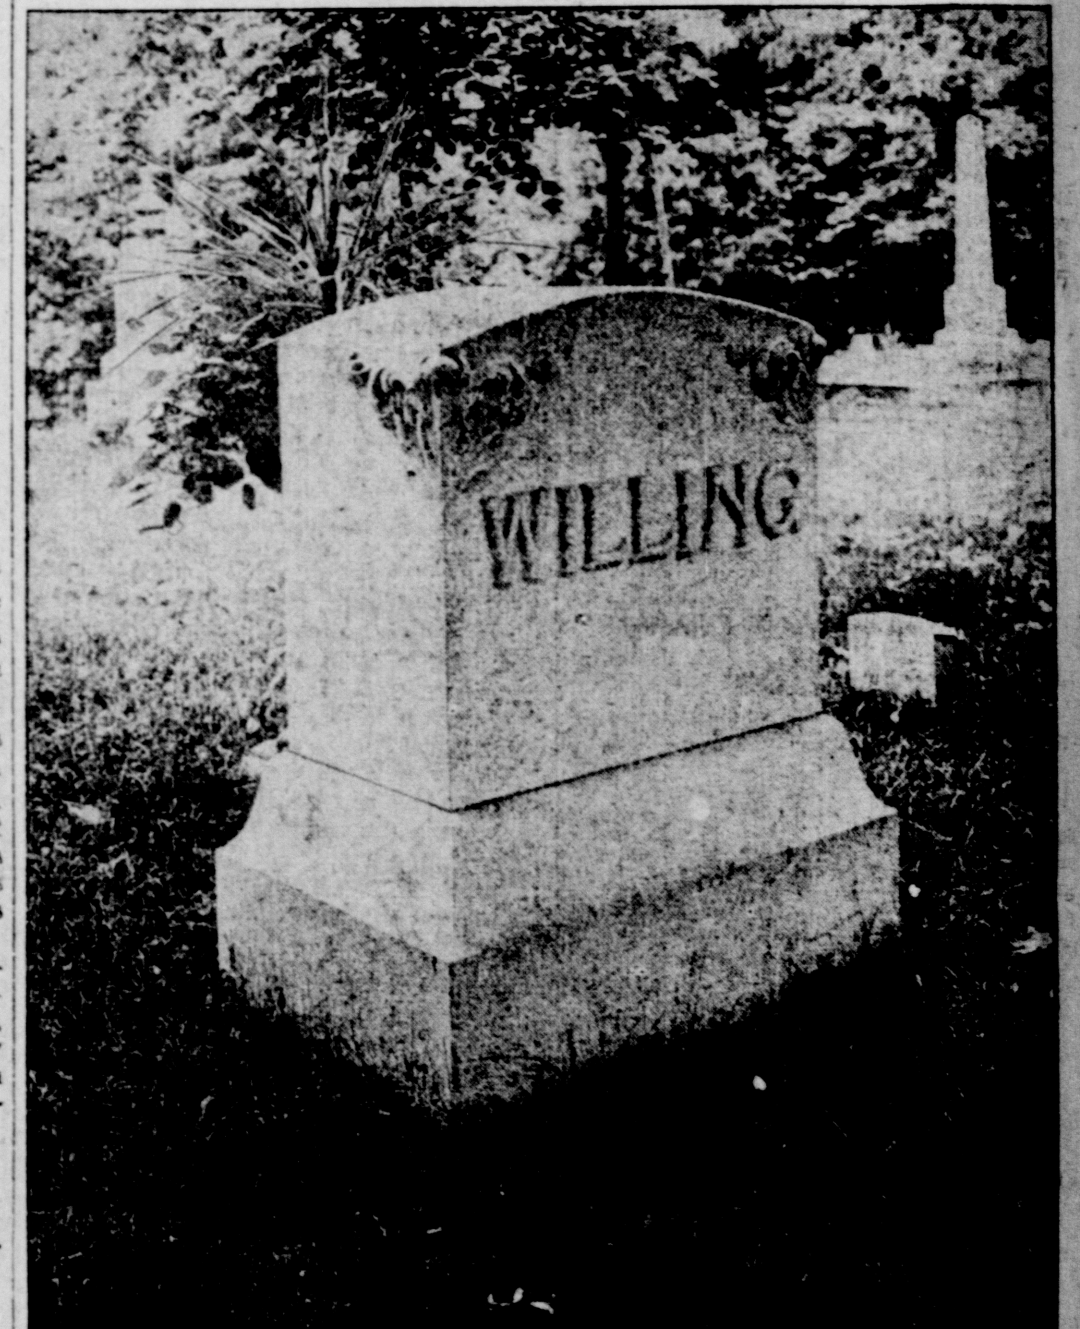

Do your feet tire when you go shopping? And do you object to the awkward and unsightly affairs called “walking shoes?”

The makers of the celebrated La France Shoe for

Women (\$3, \$3.50 and \$4) have perfected a shoe which you ought to get acquainted with, it is so different from the ordinary, so-called, “flexible welt” shoes. It is the La France Flexible Welt, and the illustration herewith shows that the name is a good one. It feels as comfortable as a slipper. It yields to every movement of the foot and instantly adapts itself to all positions.

Yet it loses none of the style and grace which have made La France shoes famous—a shoe to be proud of and to give long, satisfactory service. We had rather show it than describe it.

## KNIGHTS CONVENE HERE ON MAY 4TH

KNIGHTS OF PYTHIAS HOLD DISTRICT CONVENTION

C. C. HAMILTON IS DEPUTY

Appointed to Succeed Late L. W. Gosnell by Grand Chancellor Göttery Reedsburg, Wis.

The Knights of Pythias of the La Crosse district will hold a district convention in this city on May 4th, according to announcement made today by District Deputy C. C. Hamilton of this city, who is also grand prelate of the Wisconsin grand lodge. It was originally planned to hold the district convention here on April 13th, but owing to the failure of Grand Chancellor Göttery of Reedsburg, Wis., to appoint a successor to District Deputy L. W. Gosnell, the matter was referred until it was too late to arrange the convention. With the announcement of the appointment of Mr. Hamilton comes the announcement of the completion of plans for the convention.

Deputy Hamilton has notified the following cities, which are in this district to be present with as large a delegation of members as possible, beside the regular delegates: Alma, Galesville, Bangor, Sparta, Tomah, Viroqua and lodges Nos. 57 and 27, La Crosse.

It is expected there will be a large number of outside visitors here. U. S. Burns, grand keeper of records and seals of Milwaukee, is expected to be here to instruct the members in the secret work and to deliver an address.

The session will be held in the evening, the business session being followed by a social session and refreshments.

## ASSOCIATED PRESS AFRAID OF THE CARS?

CHICAGO, April 6.—Judge Honore of the circuit court of Cook county late yesterday granted a temporary injunction restraining the Associated Press from directly or indirectly compelling the St. Louis Post-Dispatch or any other newspaper having membership in the Associated Press to refuse to receive the press report over the United Press wires in the offices of the Associated Press newspapers taking the United Press report. The Western Union Telegraph company was also temporarily restrained from removing its wires.

The suit grew out of an order of the directors of the Associated Press to the St. Louis Post-Dispatch and other Associated Press newspapers to take the United Press wires and operators out of their offices and buildings. The suit involves the right of an Associated Press newspaper to receive news by wire in its office from any other press association. A hearing has been set for Friday, April 9.

## BALL DIRECTORS MEET TOMORROW

WILL APPOINT COMMITTEES TO  
HAVE CHARGE

PLAN BIG OPENING EVENT

President Elliott Says Business  
Houses Will be Asked to Close to  
Help the Team Get Started

The directors of the La Crosse Professional Baseball association will hold a meeting tomorrow afternoon for the purpose of electing committees to take charge of the buildings and grounds and other departments. Uniforms for the local players will be decided upon at this meeting. The plan to build a number of boxes in addition to the grand stand will also be discussed by the directors. The opening of the league in La Crosse will be a gala day here and

the directors will make every possible effort to have the business houses close.

According to President John A. Elliott the directors of the league spent most of their time at the meeting Sunday in considering the schedule. It was decided that the schedule submitted at the meeting was one that required too much mileage and this was the objection. The schedule will be returned to Chas. Cushman of Milwaukee, who will make the required changes and a vote will be taken upon it by mail in about a week.

## ELECTIONS ABOUT THE COUNTRY TODAY

DENVER, Col., April 6.—The prohibition party backed by the anti-saloon league is making an active fight in most of the cities and towns in the state outside of Denver, where municipal elections are being held today. The issue between the "wets" and "drys" is the chief point of contention everywhere and for weeks it has been bitterly fought out. The chief fight centers around Colorado Springs, where an effort is being made to prevent drug stores from selling liquor. There have never been any saloons in Colorado Springs because of stipulations made in all

deeds when the city was founded by Gen. W. J. Palmer.

Interest in Chicago  
CHICAGO, Ill., April 6.—After one of the hottest campaigns in the history of minor elections in Chicago, the voters today are voting for a new county treasurer and city clerk and are electing candidates to more than half of the seats in the city council. Owing to the fact that a large number of municipal improvements will be voted upon by the new council, the reform element has made a strong effort to defeat the old "gang" aldermen. Owing to rain the vote will be light.

MILWAUKEE, Wis., April 6.—The heaviest vote on record in many of the largest cities of the state is being polled as a result of an extended local option campaign by the anti-saloon league. Many cities, wet ever since their incorporation, are now voting on the question and in retaliation the wets have projected the issue into the election in several cities now dry. Among some of the larger cities where no licenses are the issue are: Ashland, Beloit, Oshkosh, Superior and Marinette.

## LAST TRIBUTE TO ATLEY PETERSON

PRAIRIE DU CHIEN, Wis., April 5.—(Special.)—An assemblage of five hundred persons gathered in Soldiers Grove on Friday to attend the funeral of Hon. Atley Peterson, for many years the leading citizen of that section, whose death occurred on Monday, March 29.

A special train from Madison brought out Governor J. O. Davidson, a lifelong friend and business associate of Mr. Peterson's, and many other men prominent in the state capital, also Knights Templars from Richland Center, Mazomanie, Lone Rock and Boscobel.

The services at the Lutheran church were conducted by Rev. Grimsrud of Minneapolis, assisted by

the Lutheran clergymen of Soldiers Grove and Boscobel. The pallbearers were State Bank Examiner Marcus Bergh of Madison, Mr. Henry Otto of Prairie du Chien, Hon. David G. James of Richland Center, Messrs. O. P. and W. A. Vaughan of Wauzeka and Caswell of Mt. Sterling.

At the grave the services were in charge of the Masonic fraternity with Mr. C. J. Smith of Viroqua presiding. About one hundred Masons were in attendance, coming from La Crosse, Viroqua, La Farge, Prairie du Chien, Lancaster, and points east on the line to Madison.

## TRADING STAMP LAW PRONOUNCED VALID

ST. PAUL, Minn., April 6.—The trading stamp law requiring that the face values of the stamps to be printed upon them, today was pronounced constitutional by Attorney General Geo. T. Simpson, and was immediately signed by Gov. Johnson. This ends the fight which has been waged by the stamp company. It is believed the law will put an end to their existence in Minnesota.
